

WEATHER OUTLOOK

Temperatures will average 5 to 10 degrees below seasonal normal, with a 24 to 27 in. 40 to 45 in. of rain. Windy weather will be replaced by calm weather. Low to moderate precipitation of consecutive days.

Vol. 60 No. 104

Duik County Primary Election Foreseen

Levee Board To Boost Interest In Quad-Cities; Race For State's Atty.

Predictions of a dull primary election are being made by some Madison county political observers as the "political fever" which usually runs rampant at this stage has not yet become contagious. However, political activity is expected in the primary battle for the coveted levee board position.

A number of political appointees employed in the county courthouse, veterans of election battles, are hoping that some excitement will be offered after the first of the year, but so far there is little promise of serious opposition for nomination to most of the county offices. Few political activities, such as parties and rallies, have been conducted.

No announcements have yet been made or Quad-Cities intentions to run for the two Madison county posts to be available on the Side Levee & Sanitary District board of trustees. Madison county has had a representative on the board for a number of years but a new state law requires at least two to be elected from this area and more than three from the more-heavily-populated St. Clair county area.

At present all four of the trustees are from St. Clair county—President Lawrence Tolson, John Molla, George Duff and Thomas Hennessy, all of East St. Louis. The fourth member, Dan Costello, resigned when he was elected a state representative from East St. Louis. A contest for the office of state's attorney is assured as Terry Francis, Granite City attorney, is circulating petitions and Joseph Bartylak, assistant state's attorney from Collinsville, is planning to run if incumbent State's Attorney Dick Mudge decides to withdraw.

No Plans By Mudge. Mudge, who is completing two terms in the office, has made no formal announcement of his plans, and Bartylak has obtained petitions from Miss Eulalia Holt, county clerk.

However, neither has moved to obtain signatures on petitions. However, petitions are being circulated by three other incumbent office holders who have announced plans to seek re-election. They are Circuit Clerk Will (Continued on page 2, col. 6)

BIRTHS

Births recorded at St. Elizabeth Hospital:

Mr. and Mrs. William Carpenter, 2023 Bryan avenue, Dec. 26, Tracy Lynn, five pounds, 10 ounces.
Mr. and Mrs. Robert Chinn, 3041 Dale avenue, Dec. 26, Candice Rae, seven pounds, four ounces.
Mr. and Mrs. William Lynn, 2617 Warren avenue, Dec. 26, Candice Michelle, seven pounds, six ounces.
Mr. and Mrs. Ronald Scarborough, 2754 Washington avenue, Dec. 27, Lora Lee, eight pounds, six ounces.
Mr. and Mrs. Karl Meyer, 1623 Third street, Madison, Dec. 28, Mona Marie, seven pounds, one ounce.

Mr. and Mrs. Maurice Keelin, 5445 Marvyn street, Dec. 28, Barbara Jean, seven pounds, six ounces.
Rev. and Mrs. Clifford Moeller, 2408 Klarny avenue, Dec. 28, Melody Lynn, seven pounds, 14 ounces.
Mr. and Mrs. Chester Hillis, 2231 Dewey avenue, Dec. 28, Louise, seven pounds, two ounces.

BOYS
Mr. and Mrs. John Ganeheff, 4110 Kirkpatrick homes, Dec. 26, John Stephen, six pounds, 14 ounces.

Mr. and Mrs. James Bernick, 2836 Fortune street, Dec. 28, Timothy Donald, seven pounds, eight ounces.

Mr. and Mrs. Curtis Thompson, 2515 Dale avenue, Dec. 28, Dale Alan, eight pounds, seven ounces.
Mr. and Mrs. Thomas Patton, 3030 Washington avenue, Dec. 28, Michael Elliott, eight pounds, two ounces.

Assistant Postmaster Madison Postal Employee 47 Years, Franklin Retiring

Changes in postal service ranging from bicycle delivery and two-cent first class mails to jet flown air mail and zip code have been seen in the 47 years service by Madison Assistant Postmaster W. A. Franklin, who is leaving the department Saturday.

Franklin, 65, is in length of service the oldest assistant postmaster in southern Illinois. He claims no relationship to the country's first Postmaster General, Benjamin Franklin. He began working at the Madison post office as a subletter and became assistant postmaster six years ago. Actually, he delivered mail on his bicycle when he was 12 and his father, William W. Franklin, was postmaster. He was paid \$1 a day.

Commenting on Franklin's retirement, Postmaster Harry Johnson said, "He is one of the best postal inspectors in the business. His successor will be named at a later date for post office work at Madison."

Biggest Change In Madison
The biggest change in the Madison postal system in Franklin's opinion occurred in 1920 when the first bicycle delivery began. "Before that we only had the first motor vehicle and a few delivery men," he said. "The new Madison post and special deliveries. It was a three-wheeled motorcycle."

In his 47 years, Franklin said he saw the start of air mail delivery, the zip code dispatch system, the first jet, and the dedication of the new Madison post and special deliveries. It was a three-wheeled motorcycle."

Retiring Madison Assistant Postmaster W. A. Franklin, a veteran of 47 years postal service, who is leaving his post next Saturday.

Federal Aid To Be Sought By City

GC Pollution Committee To Try For Maximum Amount Of \$514,000

Application for a federal grant, construction plans and a rate ordinance are being prepared to meet the July 1 deadline for starting construction of Granite City's sewage treatment plant.

Following the completion of the plans by late spring, construction bids will be sought after the award of a construction contract. The revenue bonds are to be issued. While the city has authorized a \$1,715,000 bond issue, the amount to be sold will be determined by the federal grant.

The city could receive a U. S. grant of up to \$514,000 toward the cost of the construction. However, the amount could be less. Alderman Charles W. Moerlein, chairman of the city's Special Pollution committee, reported after a Dec. 6 meeting with the state Sanitary Water Board that the board plans to give Granite City a high priority rating for getting a federal grant.

Rate, Design Data
The application is to be sent as quickly as possible, and work already has been started by the engineering firm of Shepard, Morgan & Schwaab to gather data for establishing monthly rates and to prepare detailed design and construction plans.

Moerlein said the engineer also is to submit to the committee a list of chemicals and wastes that may not be dumped into the sewers for processing at the treatment plant.

When plans to confer with each industry to determine what steps they will take toward eliminating these wastes before they are dumped into the city lines," Moerlein said. At the same time the committee is to study the city's sewerage system and to prepare plans for its improvement.

No Date Set To Remodel Former GC Post Office
Remodeling of the former downtown post office building by the Granite City school district is being delayed until the property has been formally transferred to the school district.

It was announced Nov. 21 that the U. S. General Services Administration was assigning the building and sixteenth-century triangular site to the Department of Health, Education and Welfare for further transfer to the Granite City school district. The transaction has not been completed, but Dr. Kaiser has just been verbally reassured by the GSA in Chicago that it will be carried out within a short time.

The federal government will retain the responsibility for maintaining the now empty structure, but the school district is given the key and the title.

In transferring the post office without cost to the government stipulates that it be improved and used for educational purposes. The schools have budgeted \$30,000 to remodel it and create two or more special education classrooms, a library, a cafeteria, large conference room, several other conference rooms and offices and a small cafeteria.

Babson's Financial Forecast For 1964
Copyright, 1963, Publishers Financial Bureau, Inc.

I am still emotionally upset as I make this forecast after the annual association of President Kennedy. I, however, will try to submerge my emotions and base my forecast on the facts as I interpret them.

1. OUR NEW PRESIDENT: I believe Johnson may accomplish far more constructively before November 1964 than our late president would have been able to do. President Johnson understands better how to handle Congress, and has the confidence of businessmen. Therefore, I am reassured as to the first ten months of 1964.

2. ELECTION IN NOVEMBER: At the Republican Convention in the summer of 1964, there will be a conflict between Goldwater and Rockefeller, and perhaps others. For this reason, Mr. Nixon may slip in and get the Republican nomination. Certainly President Johnson will secure the nomination of the Democratic Party; he is a far-sighted man, and knows politics.

The city lost its original pound several years ago when a new Route 203 crossed the city dump south of Madison.

Quick Thinking Youths Aid in Pair's Capture

2 Teenagers With Rifle Admit Robbing Boys In Glenview Area

Alertness of two newboys aided police in clearing one of two holdups reported in the Quad-Cities over the weekend. Two teenage Granite City youths are in custody and have admitted a \$4 holdup and an attempted stickup of newboys in the Glenview area, and Madison police are continuing to investigate a report of a \$130 robbery at the Richard Schmied residence, 1532 Seventh street, where Mrs. Schmied, 21, said she was bound by two Halloween-masked bandits about 9 p.m. Friday.

Granite City police were alerted on Sunday night, Saturday that two teenagers in an old-model black auto were armed with a rifle and had attempted to hold up the Click brothers, James 16, and David 15, in the 2700 block of Dale avenue, just three blocks from their home.

Arrested On 19th Street
Taken into custody on 19th street at 9:45 p.m. were William Everts, 18, of 2227 East 23rd street, and David R. Hastings, 16, of 4708 Kirkpatrick homes, who had a .22 caliber rifle and a loaded shotgun in the auto, which belonged to Hastings' family. An armed robbery warrant was served on them this morning.

While the pair was unsuccessful in getting money from the Click brothers, they went on to Sunset drive where they found David Mulliken, 12, of 2928 Fortune avenue, a Collinsville eighth grader and a son of Mr. and Mrs. Edgar Mulliken, and Douglas Wickham, 15, an eighth grader, son of Mr. and Mrs. Joseph Wickham.

Again sticking the rifle out a car window, the pair obtained a \$4 in change from the two youths. David, who became excited, said he dropped about half of his money in the street and the pair sped off without it. The Click brothers, both high school students, said that a O. O. Smith, 14, of 3040 Dale avenue, said the two youths in the auto drove up and asked for a paper. When James walked to the car, a rifle was stuck out of the window and was ordered, "give me your money."

Stalled For Time
James said he saw a truck approaching and stalled for time. "I waited them out, and then the one with the gun said, 'It's all right, and tossed it on the back seat.'"

The other one began cursing him when the truck got nearer they ripped rubber and took off without bothering to stop at stop signs at 19th street. James said he and his brother went immediately to a nearby phone booth and called police, giving them a description of the car and the first three numbers of the license plate.

The pair had only started on their route and didn't have much time. David remarked, "Both youths are Free-Record carriers, and also deliver daily and Sunday papers."

Mrs. Schmied told Madison police (Continued on page 3, col. 1)

Alton Democrat Named To Board Of Review
John W. Lauer, Alton political boss, was named last night to the three-man Madison county board of review for a two-year term. County Judge Michael Kinney.

Lauer, a 68-year-old Democrat who has been active in party politics for more than 50 years, succeeded Charles A. Rook, Godfrey county Republican who is retiring after eight years on the board.

The appointment restores a two-to-one majority to the Democrats who lost the advantage when Harold Landis, Alton-area Republican, was elected as chairman of the Madison county board of review. With that office, he automatically became chairman of the board of review.

The other members of the board are Frank Rink, Collinsville Democrat who recently succeeded the late Arthur "Pete" Fields of Venice. Lauer, former president of the Kinkeo Ice & Fuel Co. at Alton, was a Democratic county chairman in 1948-49.

State statutes require that the majority representative on the board of review should be held by the majority party in the county.

General Steel Gets Railcar Order
General Steel Industries has received an order for 50 one-piece cast steel underframes with interlocking cast-steel ends for bulkhead cars from the Northern Pacific Railway for delivery in the first quarter of 1964.

The 53-foot six-inch, 70-ton cars will be built in Northern Pacific's Laurel, Mont., shops. A spokesman for the steel firm said the order was "a repeat of the order" and that it will not change employment at the plant. "It is a matter of maintaining employment at its present rate," he said. The contract cost of the equipment was not disclosed.

Ice Skater Breaks Leg At Wilson Park Rink
A St. Louis teenager, 14, daughter of Mr. and Mrs. D. A. Donald, 2921 Clark avenue, fractured her right leg Sunday evening while ice skating at the Wilson park rink. She apparently tripped on a hole or crack in the ice.

She was taken by ambulance to St. Elizabeth Hospital where she was admitted. Observers said she had lain on the ice about 10 minutes awaiting arrival of an ambulance and asked for a nurse. She had no serious injuries, and a girl friend.

Two men flip overturned auto and speed away

A pink and white auto with Missouri license plate and a crushed top is the object of a Quad-City police search after the car was seen to flip on its top in the 1400 block of State street about 5:35 p.m. Sunday. Two men in the car, crawled out and rolled it back on its wheels and "took off," according to witnesses.

The auto, badly damaged with injury about five inches clearance through the opening where there had been a windshield, made a left turn off State street and headed south on Grand avenue.

Witnesses told police it was traveling south on State street at a high rate of speed and slid into the curb, going out of control and flipping over-end-over-end, landing on its top.

The two men scrambled out, one holding a wrist, and after they climbed out of the car, one of the men, who was wearing a white shirt, was overheard to remark, "Let's get out of here."

7 DAYS WITHOUT QUAD-CITY TRAFFIC DEATH
(Continued on page 3, col. 5)

Jennison-Wright Honors 9 Employees For Service
Nine employees of The Jennison-Wright Corporation received service awards last week according to plant superintendent Stanley D. Bell.

Roy S. Kinder, 5404 Evergreen street, received a 45-year pin. Raymond F. Hoffman, 3228 Wayne avenue received a 35-year pin and Mrs. Helen M. Bergfeld, 221 Cleveland boulevard, received a 25-year service award.

Andrew J. Smith IS AGAIN PRESENTED TO THE QUAD-CITIES BY United Pentecostal Church
Located at Twenty-second and Bryan Avenue in Granite City, Illinois

BEGINNING SUNDAY, JANUARY 5, 1964 7:00 P. M.
(All Other Nights 7:30 P. M.)

There will be Full Gospel Preaching... Inspirational Singing... Prayer for the Sick... Holy Ghost Services... and our Evangelist will be featured in piano solos. You have thought of attending these services, now do so! (Monday, 7:30 P. M., January 6, 1964, Great Youth Rally of our Church... Christmas Play presented again for those who missed it.)

EVERY ONE WELCOME

MORE ABOUT Quick Thinking Youths

(Continued from Page 1.)

lice she was in the living room of her home watching television when the two men wearing animal-masks entered. Both carried small pistols, she said. Her husband was at work at Granite City Steel Co. and her three-year-old daughter, Susie, was asleep in a back bedroom.

She said they asked for money and began slapping her when she said there wasn't any. She was bound with a venetian blind cord, apparently taken from a toolbox belonging to her husband, and carried into a front bedroom and placed on a bed, she related to police.

The pair then began searching through dresser drawers and found a black wallet containing \$150. The money was taken. Police were told there was other money in the drawer which wasn't taken.

Mrs. Schmieg was found about 11 p.m. by her husband when he returned from work. Her legs were tied, and her hands were bound behind her back, the report stated.

Two Wallets Missing
Mrs. Frances Black of Black's bakery, 20th street and Delmar avenue, reported to Granite City police at 4 p.m. Thursday that a thief had taken two billfolds from her purse while it was hanging on a hook in the kitchen of her home for several days. She said about \$5 and papers were missing.

Girl In Fair Condition
Delores Burns, 13, Madison junior high school student who was struck by an auto Christmas Eve at Fourth street and McCambridge avenue, remains in fair condition today at St. Elizabeth Hospital. She resides at 2007 Sixth street.

Charles Wiltshire, 60, Dies At Home Today

Charles Harper Wiltshire, 60, of 2128 Bryan avenue, died at 9:15 a.m. today at his home. Wiltshire, who had been ill for about five years with a heart condition, had lived here three years. Before that he previously lived in Venice after his retirement from the Chicago police force in 1938.

His wife, Anna, died three years ago. He is survived by four daughters, Mrs. Mary Laid, Granite City; Mrs. Delores Hagen, St. Louis; Mrs. Renee Hagen, St. Louis; Mrs. Evelyn Quinn, Hollywood, Fla.; a son, Richard Allen Wiltshire, Hillsboro; two sisters, Mrs. Mabel McGill, Wood River; Mrs. Loretta Bertram, Collinsville and 20 grandchildren.

Further information in today's obituary column.

Two St. Louis Boys Caught In Stolen Car

An auto theft was solved at 9 p.m. Sunday when Venice and Madison police halted a 1939 car at Third street and Madison avenue. The occupants, St. Louis boys 16 and 15, were arrested, stealing it 90 minutes earlier near the Anheuser-Busch brewery in St. Louis.

The youngsters had driven across the McKinley Bridge and parked the auto near the Venice toll plaza. When they returned to it later and drove off, the girls aroused suspicion and police were called and were asked to check the car. The arrest and questioning followed.

The boys were released to St. Louis authorities early today. Owner of the vehicle is Tilton Grant, Collinsville.

Meet On Court Records
Police chiefs, police magistrates and justices of the peace are attending a meeting on new court and record procedures today in the office of Circuit Clerk William V. Forster. The new Illinois judicial system goes into effect Jan. 1, with magistrates and justices of the peace and police magistrates after their present terms expire.

SNOW PRINCESS, Miss Pam Goodin, daughter of Mr. and Mrs. James Goodin, 3700 Franklin avenue, who was crowned in ceremonies Saturday night at the annual Snow Princess coronation ball at the YMCA Teen Town.

Miss Pam Goodin Crowned Teen Town Snow Princess

Miss Pam Goodin, daughter of Mr. and Mrs. James Goodin, 3700 Franklin avenue, was crowned "Snow Princess of 1964" in coronation ceremonies at the YMCA Teen Town Saturday night.

Miss Goodin, a senior at Granite City high school, was crowned by the retiring princess, Miss Aclette Alexander, daughter of Mr. and Mrs. Thomas Alexander, 5105 Rapp road.

Members of the princess' court were Miss Claire Steinhauer, Miss Judi Spurrier, Miss Elaine Prusak, Miss Donna Mickell, Miss Mary Pat Lewis, Miss Mary Ann Krivi, Miss Connie Isaak, Miss Ginger Horn, Miss Nona Hobbs and Miss Sharon Hamill.

Escorts for the semi-formal orchestra dance were Bill Hayes, Tom Moseley, Rusty Tolaren, Mike Lewis, Kenneth Ferro, Ernie Ernst, Rick Reutebuch, Larry Anderson, Noe Lambert.

**Man Beaten, Robbed
While At Rural Tavern**
A man from Washville, Ill., complained to the Madison county sheriff's office at 12:01 a.m. Sunday that he had been beaten and robbed of his wallet containing \$15 to \$20 by an unidentified man while at the Diamond Inn, Nameoki and Maryville roads.

He is Allen Hughes, who told his intoxicated assailant when they began to shake dice to determine who would play the juke box. They then began rolling for \$5, and the man accused Hughes of cheating and struck him a number of times, the sheriff's office reported.

Hughes and a companion were followed to their auto and returned to the tavern where the attacker and a companion took his wallet. The sheriff's office is investigating.

**Burglars Hit Caton's
Market In Venice**
A weekend burglary netted 36 cartons of cigarettes and about \$100 in coins at Caton's Midway Market grocery, Second street and Hampden avenue, Venice, it was discovered at 6:30 a.m. today. Entrance was made through a window on the east side.

The money, taken from a cigar box under a counter, included rolls of coins totaling \$10 in half-dollars, \$30 in quarters, \$15 in dimes, \$6 in nickels and \$5 in pennies. Also stolen were loose quarters amounting to between \$15 and \$25, and \$10 in other loose coins.

Money Taken From Jar
Edward Von Giller, 1873 State street, reported to Granite City police at 6:25 p.m. Thursday that a thief took \$4 or \$5 from a fruit jar in a dresser drawer. There was no sign of forced entry.

1958 Auto Stolen
A 1958 auto parked on Seventh street at Madison avenue, belonging to Betty DeMontmolin, 701a Madison avenue, was stolen early Sunday morning. Madison police were told the doors on the auto were locked.

MORE ABOUT 12 Persons Hurt

(Continued from Page 1.)

Lake drive, was charged with failure to yield the right-of-way in an auto accident at 2:30 p.m. Friday in which Donald H. Harris, 32, of 1233 Madison avenue, driver of the other car was injured.

Crouch told police he had made a required stop at the intersection of 23rd street and Grand avenue and proceeded to the cross Grand when his auto was struck by Harris'. The victim was taken by ambulance to St. Elizabeth hospital with pains in the left knee and right lower leg and a small abrasion to his head. He was given treatment and released.

Truck Accident On Bridge
A McKinley Bridge accident at 1:50 a.m. Saturday resulted in the driver, William Duren, 2220 Terminal avenue, being taken by ambulance to St. Elizabeth Hospital. He was treated for cuts about the head.

The entire front end of his half-ton pickup truck was damaged when the eastbound vehicle apparently collided with a railing or lane divider on the west end of the bridge, Venice police reported.

William Hocker, 78, Dies; Ill 18 Years

William H. Hocker, 78, of 2414 Delmar avenue, died about 11 a.m. Saturday at St. Elizabeth Hospital where he had been a patient one day.

Mr. Hocker, a retired boxman in the coveport at General Steel Industries, had been ill with a heart ailment for 18 years. He was a native of Gamma, Mo., and lived here 37 years.

Survivors include his wife, Effie, a daughter, Miss Mary Hocker, and a sister, Mrs. Floy Simms, who lives in Missouri. Funeral arrangements are being given in today's obituary column.

**Company Is Chartered
For Business In State**
Charles A. Schmidt Instrument Co., 172 Briarcliff, was chartered by Charles F. Carpenter, secretary of state, to manufacture, sell and purchase surgical instruments and physicians, surgeons and hospital supplies.

The company, whose regional agent is Charles A. Lahay, 172 Briarcliff, is incorporated in Missouri.

Speeding Charge
Gerald White, 17, of 1657 Third street, Madison, was arrested last night at 16th street and Delmar avenue on a charge of speeding.

**CHRISTMAS PARTY
FOR HOMEOWNERS**
The Christmas party of the Isabel Bever Unit of the Madison County Homeowners Extension Association was held Thursday evening in the home of Mrs. Myrtle Hickman, 45 Terrace lane.

Mrs. Margaret Todoroff, chairman, conducted the brief business meeting. The major lesson for the evening, "Christmas Customs in Other Countries," was given by Mrs. Margaret Fildes.

The chairman announced that a conference will be held on Jan. 29 in Urbana, Ill., with Mrs. Eleanor Barnhart representing the club as a delegate.

A Christmas gift exchange was held and a dessert course was served by Mrs. Hickman and Mrs. Eleanor Barnhart, co-hosts.

Those present included Mesdames Kay Acquaviva, Lillian Adams, Barnhart, Angie Brown, Mary Chessey, Irene Davies, Maxine Haeckel, June Hubert, Lorraine Joshi, Bonita Lemon, Edith Ross, Mildred Ward and Doris Wilson.

Next regular meeting will be held on Jan. 23 in the home of Mrs. Dunham, 633 Chouteau, Mitchell, with Mrs. Lillian Ruchhausen assisting the hostess.

MORE ABOUT Federal Aid

(Continued from Page 1.)

The estimated cost for a single family dwelling has been given as \$110. A sliding scale is under consideration for large water users.

The city's pollution committee, Engineer Edward Junesau and Bond Atty. William Beatty are working together to prepare the federal application and the state ordinance. Moerlein pointed out the federal grant could amount to as much as 30% of the treatment plant construction cost.

Council action will be required on the application and the rate ordinance. The \$1,715,000 revenue bond ordinance was approved at the council's Dec. 23 meeting.

**Amvets Auxiliary 51
Delivers Yule Baskets**
Amvets Auxiliary Post 51 members have completed their annual holiday delivery of baskets to five needy Quad-City families. It has just been announced by the president, Mrs. Bertha Maclos.

Each family received four baskets containing canned goods, dairy products, luxury items, toys and clothing. There were also turkeys and huge sides of bacon for each family contributed by the Amvets and Sacks of Post 51.

**Heater Causes Fire In
Railroad Freight Car**
An overturned methanol heater set fire to a freight car in the Terminal Railroad Association yards near the Lincoln school in Venice at 5 a.m. Saturday.

Venice firemen, who extinguished the blaze, said it damaged the wooden floor of the metal car, which was empty except for the heater. No estimate of the loss was given.

Granite City PRESS-RECORD Mon., Dec. 30, 1963 Page 3

JFK Memorials Topic Of GC Democratic Club

Plans for appropriate memorials to the late President John F. Kennedy were discussed at a holiday celebration by Granite City Democratic Club members and their wives Sunday afternoon at the Rose Bowl restaurant. Forty-five attended the buffet dinner.

A report of the memorial committee was submitted by Attorney Horace Calvo. Projects under consideration include memorials at the new Maryville road park site and the Bellemore Village shopping center, scene of a 1960 campaign visit by President Kennedy.

Formal business at the monthly gathering was omitted. Talks were presented by Sen. Paul Simon and Rep. Lloyd C. Harris, who said a Democratic caucus is being held in Springfield today on the state legislative district reapportionment failure.

Hostesses were Mrs. Lorraine Williams, Mrs. Josephine Calvo and Mrs. Ann Benicki.

Exam Dates Set For Practical Nurse School

The F. W. Olin Vocational School of Practical Nursing, Alton, is accepting applications for the next course which will begin March 17.

Pre-entrance qualifying examinations will be held Tuesday, Jan. 7, 14 and 21 beginning at 8:30 a.m.

Men and women between the ages of 18 and 55 who meet the physical and educational requirements will be considered.

The course is one year in length and graduates are eligible to write the State Board examination for licensure as practical nurses. Persons wishing to take the pre-entrance examination should call or write Virginia Sweetman, Coordinator, F. W. Olin Vocational School, Alton, for an appointment.

THIS I BELIEVE

Did you know that you have not been baptized in water until you have been immersed? The original meaning of the word Baptize meant to dip, immerse, or submerge. The Apostle Paul said, "Buried with Him by Baptism." Romans 6:4. To be buried in baptism requires immersion. Do you believe the Apostle Paul or not?

Did you know that there is only one collective case when and where anyone under the New Testament Plan of Salvation received the Holy Ghost before Water Baptism? (Acts 10:44-48). And that all other promises, commandments, and examples receive the Holy Ghost subsequent to after-water baptism? (Mark 1:8; John 7:37-39; Acts 1:5; Acts 2:38, 39; Acts 8:15-17; Acts 19:1-7 etc., etc.).

Did you know that this means that you likely do not have the Holy Ghost except you received Him after you were immersed in water of baptism in Acts 10:44-48. Do you want to know how to be baptized in water? (Acts 2:38; Act 8:16; Acts 19:5; Romans 6:3-4). Do you want to know what will happen to you when you receive the Holy Ghost? (Acts 2:41-4; Acts 10:44-48; Acts 19:5, (6)).

HOLIDAY BRIDE: Mrs. Paul Halbert, the former Donna Ward, a daughter of Mr. and Mrs. O. C. Northrop, 2200 Woodlawn avenue, who was married Saturday evening at Concordia Lutheran Church.

Jones-Michel Wedding Takes Place Saturday In St. Louis

An out-of-town wedding of interest, locally was that Saturday at Pope St. Pius V Roman Catholic Church in St. Louis of Miss Patricia Anne Michel, a daughter of Mr. and Mrs. J. R. Michel of St. Louis, and Larry Edward Jones, son of Mr. and Mrs. Arthur Jones, 3234 Colgate place.

The ceremony took place at 11 a.m. with the Rt. Rev. Robert E. McKeon officiating.

The bride wore a gown of candlelight peau de soie and a madonna type veil of lace. She carried a bouquet of white cymbidium orchids, variegated lily and holly.

Miss Marilyn Magee, maid of honor, and Mrs. Phillip E. Jones, and Mrs. William Steffens, bridesmaids, were dressed alike in scarlet silk tulle. Both held bouquets of red carnations and holly.

Phillips Jones, the bridegroom's brother, served as best man, and groomsmen and ushers were John Michel, William Russell, Dick Drummond and John Jones.

HOLIDAY VISITOR

Leon E. Stromlund, Interior Communications, U.S. Navy, spent the Christmas holidays with his parents, Mr. and Mrs. T. E. Stromlund, 2706 Nameoki road. He has completed seven months of nuclear reactor test type schooling in Saratoga Springs, N. Y., and has been assigned to duty at New London, Conn., aboard the submarine Nautilus. When he returns from sea duty he will receive additional schooling in the nuclear field to qualify for duty with the nuclear submarine fleet.

Yule Setting For Halbert-Ward Nuptials Saturday

In a Christmas setting at Concordia Lutheran Church Saturday evening Miss Donna Eugenia Ward was married to Paul Gary Halbert.

The bride is a daughter of Mr. and Mrs. O. C. Northrop, 2200 Woodlawn avenue. Mr. Halbert's parents are Mr. and Mrs. Clifton Halbert, 3046 Iowa street.

Bouquets of red and white carnations and poinsettias decorated the altar, illuminated with burning tapers in candelabra, and candelabra decked with white satin bows and amalia lighted the white-carpeted aisle through which the procession passed.

Rev. Arvin Twietmeyer officiated at the 7 o'clock ceremony, and a reception was held afterward at the Lewis and Clark restaurant in East Alton.

A program of wedding music was provided by Miss Toni Hunter, vocalist, accompanied at the organ by Gordon Waterman, who played the wedding march and recessional. Miss Hunter sang "The Voice That Breathes O'er Eden," and "O Perfect Love."

The bride wore a gown of ivory silk-faced peau with a sheath effect front and a very bouffant chapel train. The bride had a high neckline outlined with alencon lace and the sleeves were long and pointed at the hands. A veil of ivory illusion was secured by a lace and pearl blossom, and the bride held a cascade arrangement of white roses and holly.

Mrs. William McDowell, matron of honor, and Misses Freely Arberber and Janice Grieve, the latter a cousin of the bride, bridesmaids, were dressed alike in short rouge red velvet sheaths with long matching satin overskirts. Cretels of red velvet were worn on their heads and they carried white pom poms, carnations and holly on white muffs, with the exception of the honor attendant, whose muffs were adorned with red and white.

Lynette Ward, a sister of the bride, was a bridesmaid.

Mrs. Doris Selander and her daughter, Ellen, of Longmont, Colo., are spending the holidays here with her mother, Mrs. R. E. Chapman of Delmar avenue. Mrs. Selander and her daughter, Margaret Chapman.

Among the out of town guests here for the wedding were Mr. and Mrs. Robert Doman and son, Robert, of New York; Mr. and Mrs. Harry D. Grieve, Mrs. Raymond Stengel, and Mr. and Mrs. Richard Stengel of Decatur, Ill.; and Mrs. Donald Tate and sons of Morton, Ill.; and Mr. and Mrs. Leonard Grieve and daughters, Pamela and Nancy, of Dallas, Texas.

Callis-Ham Wedding Nov. 29 Is Announced

Announcement is being made of the marriage of Attorney F. Lance Callis, a son of Mrs. Nora Callis, 2859 State street, to Mrs. Joan Wegrzyn Ham, a daughter of Mr. and Mrs. Joseph A. Wegrzyn of East St. Louis.

The wedding took place Nov. 29 in Waterloo, Ill. The couple is living temporarily with the bride's parents while awaiting completion of their new home at 3136 Harvard place.

SCREENS & STORM INSERTS
REPAIRED GRANITE CITY
GLASS, 18TH & EDISON

MRS. LEWIS M. SIEDENER, a former resident of Granite City and a recent bride. Before her marriage at the Reorganized Church of God, Day Saints in Middletown, O., she was Phyllis Oglesby, a daughter of Mr. and Mrs. Harold Durrell of Middletown, former Granite Cityans.

Family Party At Harsh Home

Mr. and Mrs. John Harsh, 2261 Lynch avenue, entertained with a family Christmas party in their home Thursday evening.

Present were Mr. and Mrs. Jonas Reed and children Julie, David and Jimmy; of Highland; Mr. and Mrs. Larry Albert and Mr. and Mrs. Charles Niepert and daughter, Mary, of Troy; Mr. and Mrs. Hays Mallory and Mr. and Mrs. Gordon Mallory of Edwardsville; and the following local people: Mr. and Mrs. E. William Niepert, Mr. and Mrs. Frank H. Niepert, Mrs. Dorothy Niepert and children, Carol Ann, and Mary Alice, Richard Franklin, Mr. and Mrs. Robert Kimbrell and children, Bobby and Trudy, Mr. and Mrs. John Harsh Jr. and Terry, James Harsh and Ted Schaefer.

Siedener-Oglesby Wedding In Ohio

Mrs. Hazel Oglesby, Mrs. J. Robert Scott and Mr. and Mrs. Philip Theis have returned from Middletown, O., where they attended the wedding Dec. 22 of Mrs. Lewis M. Siedener and her daughter, Mrs. Harold Durrell of Middletown, and Lewis M. Siedener, son of Mr. and Mrs. Earle Seidner also of Middletown.

The ceremony took place at the Reorganized Church of Latter Day Saints with the Rev. Carl Ashbaugh officiating. A reception followed in the social room of the church.

The bride is a granddaughter of Mrs. Oglesby and a niece of Mrs. Scott. Mrs. Theis served as a bridesmaid at the wedding.

The former Miss Oglesby is a graduate of Middletown schools and is presently attending classes at Miami University Academic Center. She is employed in the administrative offices of the Middletown board of education. Mr. Seidner attended Hiram College and was graduated from Miami University. He is a teacher in a junior high school in Middletown.

COTERIE WILL MEET

The Ladies Coterie will hold the first 1964 meeting Jan. 2 at First United Presbyterian Church with Mrs. Harry T. Lewis as hostess.

WRESTLING WEEKEND IN GRANITE CITY. High school wrestlers from nine schools struggled through a rigorous tournament Friday and Saturday at GCHS held its third annual holiday meet.

In left photo, the only individual champion from Granite City—112-pounder Rich Bledsoe—steps down from the awards stand after receiving his trophy. Bledsoe won all four of his bouts in the tournament to run his season record to a perfect 7-0. He won the 103-pound division last year.

In the next photo, Granite City's Don King (top) wrestles over Jerry Whitis of Springfield Lanphier during a final round bout. King took a 5-1 decision to nail down second place in the 120-pound division.

In photo third from left, Principal Lawrence McCauley of Granite City presents the championship trophy to the Sterling Golden Warriors of Coach Carson Delamont (bottom left). Sterling amassed 122 points to take the title away from the host school for the first time. The team also took seven of the 12 individual championships.

In right photo, Jim Valicoff of Granite City tosses East St. Louis' Mike Smith for a loop in a 138-pound battle. Valicoff won the bout on a 5-2 decision and was awarded the third-place trophy in his division.

Sterling Snags Holiday Wrestling Championship

But Kahoks Win 81-59

Title-Bound Collinsville Dazzled Briefly By Madison In Tournament

Headly arenas from the Sweet Smell of Success waited pleasantly about the Madison Trojans Friday night, but only briefly. For 15 minutes and 53 seconds, to be exact.

It took that long for Collinsville's Kahoks to clear the air and dash the Trojans' notions of upsetting the state's No. 1 high school basketball team en route to the championship of the East St. Louis Holiday Tournament.

The final score turned out to be 81-59, a tally that certainly gives no indication that Madison's Kahoks were the top-ranked Trojans by seven points in the second quarter.

Unhappily for Coach Earl McCauley's locals, the Collinsville tribe grabbed the lead with just five seconds left in the first half and then ran wild in the third and fourth periods.

The Kahoks springboarded from that victory to a 79-40 decision over the host East St. Louis Flyers in the Saturday night championship contest.

Trojans Coach Press Predicably, both teams employed a pressing defense in the Friday night encounter. Surprisingly, Madison had the most success in getting through in the first half.

The Trojans went ahead 11-10 midway in the first period on Dale Turner's field goal. When Turner sank a free throw after a 15-15 tie, he was 18-13.

Kahoks fans began to shudder when Madison led 20-13 and 22-15 in the early moments of the second period. But then their heroes, inspired by the sparkling play of senior guard Dave Russell, began to catch up.

Russell scored nine of his 23 points in the quarter, including two free throws in the final five

seconds that put Collinsville in front 35-34.

Second Half Dazzler

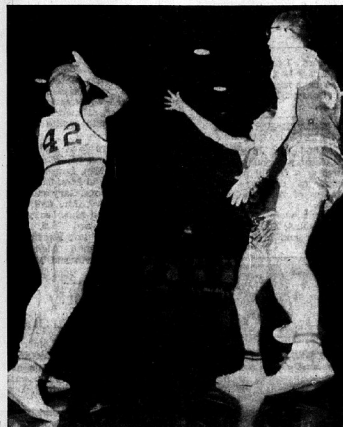

The second half was pure misery for the Trojans, who qualified for the semifinal round by whipping Springfield Fethians 89-66.

The Kahoks hit just about everything they threw toward the basket, while the Trojans' brilliance quickly disintegrated.

Russell scored nine more in the third period and the Kahoks' two big boys—all-star Roger Bohnerstiel and Mike Cook—hit six points each. After three periods, Collinsville led 61-47.

Before Coach Vergil Fletcher brought in his reserves to finish out the second half, the Kahoks regulars had hit on 18 of 24 field goal attempts.

Madison's next game will be a Midwestern Conference affair Friday night, when Highland's high-flying Bulldogs play a call.

GC Cage Team Fails To Win In Tourney

Granite City's basketball Warriors jumped home from the third annual Pontiac Holiday Tournament early Saturday morning without a victory to show for the 20-mile trip.

The local squad lost in the opening round 75-65 to Richwoods of Peoria Heights and dropped a tight 67-66 decision Thursday night, and then to Springfield on Friday night.

The Warriors lost the Friday night game to Springfield in the final 11 seconds when John Lawson sank two free throws for a 67-64 lead.

Joe Hiles of Granite City scored before the buzzer, but the two free throws already had ice the Springfield victory. Phil Springfield sparked the winners with 24 points, with Lawson getting 18.

Larry Lilley, as usual, carried most of the offensive load in the Warriors. He pumped in 15 against Richwoods and 25 against Springfield for a two-game total of 41.

The loss to Richwoods was simply a case of being out of the foul line and out of the paint. The Knights sank 27 free tosses to the Warriors' 15 and led in rebounds, 33-21.

The Warriors, now 5-3, resume Southwestern Conference action Saturday night at Wood River.

Granite City Finishes In 2nd Place, Taking First Tourney Loss Since '53

Sterling's Golden Warriors had the King Midas touch here Friday and Saturday.

The visitors from upstate Illinois won seven individual championships and took the team title in a brilliant performance at the third annual Granite City Holiday Wrestling Tournament at the GCHS gymnasium.

Sterling scored 122 points to end Granite City's two-year domination of the meet. The local Warriors finished a distant second with 83 points.

Edwardsville ran third with 56 points. Other team scores in the nine-school meet: East St. Louis 53, Quincy 36, Wood River 33, Springfield Lanphier 32, Bellevue 28 and Jacksonville 25.

It was the first time since 1953 that a Granite City team had failed to win a tournament, outside the state championship series. The Warriors had compiled 23 straight victory victories.

Rich Bledsoe Wins

Rich Bledsoe, the local school's 112-pound entry, was the only

Granite City individual champion. He won four matches, one by a fall and three by decisions, en route to the title.

He pinned his first opponent, Mike Reynolds (95). Finishing third place was Rick Hillerbrayer of Quincy, 113; runner-up Ray Carter of Edwardsville, 10-2.

In addition, Coach Bill "Red" Schmitt's Warriors took three second-place trophies and three third-place trophies.

Taking second-place trophies were Paul Lapinski (103 pounds), Dan King (120) and Mike Reynolds (95). Finishing third were Jim Valicoff (138) and Tom Mofsky (133) and Mike Newell (138).

It was in sharp contrast to the 1962 tourney, when the Warriors took five individual championships.

Sterling Has 13 Pins

The victorious Golden Warriors pinned 13 opponents, most in the tourney. Quincy was next with eight pins, and Granite City won third with seven.

The individual pinning trophy went to Sterling heavyweight Dan Kraft, who won all five of his matches by falls. Two of them were lightning-fast—16 and 37 seconds flat.

Kraft, who started by pinning Belleville's Dennis Witkus in 8:14, then it was Dan Kinsell of Jacksonville in 0:16, John Evenden of Granite City in 0:37, Gene Pehlman of Wood River in 4:12 and Leroy Reeder of East St. Louis in 4:25. Reeder was last year's champion.

Reeder, not new for Kraft, however; he has won 14 of his 15 bouts this season by pins. He scored 20 for an individual.

Alexander Has Most Wins

Alexander, Edwardsville's 95-pound champion, took the honor of having the most victories. He knocked off six opponents, including Granite City's Reynolds in the final bout.

It was a great climax to the 1963 portion of the season for Coach Carson Delamont's Golden Warriors. "We started out by making a third in a quadrangular with three Iowa schools at Dubuque," he said. "Then we won eight dual meets and now this."

Sterling was not entered in a holiday meet last season but finished second in the first Granite City tournament two years ago.

Of Sterling's seven individual champions, four are undefeated—Kraft, 103-pound Ralph LaFollette, 133-pound Ray Mangon and 180-pound Mike Salvo.

Following are the individual trophy winners:

120—1. Dan Kraft, Sterling; 2. Ken Arner, Jacksonville; 3. Mike Nichols, Granite City.

112—1. Rich Bledsoe, Granite City; 2. Ray Carter, Edwardsville; 3. Richard Thorp, Wood River.

103—1. Paul Lapinski, Sterling; 2. Bill Cowen, Lanphier; 3. Jim Valicoff, Granite City.

95—1. Rick Salvo, Sterling; 2. Dan Kraft, Sterling; 3. Ken Newell, Jacksonville.

145—1. Rick Salvo, Sterling; 2. Gary Winick, Wood River; 3. John Davis, Jacksonville.

138—1. Dan Kraft, Sterling; 2. Leroy Reeder, East St. Louis; 3. Gene Pehlman, Wood River.

133—1. Tom Mofsky, Sterling; 2. Mike Newell, Jacksonville; 3. Mike Nichols, Granite City.

120—1. Dan Kraft, Sterling; 2. Ray Carter, Edwardsville; 3. Richard Thorp, Wood River.

113—1. Rick Hillerbrayer, Quincy; 2. Ray Carter, Edwardsville; 3. Mike Nichols, Granite City.

103—1. Paul Lapinski, Sterling; 2. Bill Cowen, Lanphier; 3. Jim Valicoff, Granite City.

95—1. Rick Salvo, Sterling; 2. Dan Kraft, Sterling; 3. Ken Newell, Jacksonville.

145—1. Rick Salvo, Sterling; 2. Gary Winick, Wood River; 3. John Davis, Jacksonville.

138—1. Dan Kraft, Sterling; 2. Leroy Reeder, East St. Louis; 3. Gene Pehlman, Wood River.

Granite City PRESS-RECORD
Page 6 Mon., Dec. 30, 1963

NRA Men Landman Firearms Instructor

William T. Landman, 2833 Palmer avenue, has been appointed a home firearms safety instructor by the National Rifle Association.

Landman is now qualified to conduct an NRA course designed to reduce shooting accidents in the home. The course, which requires no actual firing, emphasizes the recognition of unsafe practices and how to correct them.

MCM Team Defeated

Warden, only MCM Conference team to participate in a high school holiday basketball tournament, lost in the opening round Thursday night at Waverly by 70-55 to Routh of Jacksonville.

It's A Big Boy For The Jim Morrisons

"I can start him in the line next year!"

That was the reaction of Jim Morrison, Granite City high school football coach, to the news that his wife, Betty, had presented him with a whopping 10-pound 10½-ounce boy at 6:43 p.m. Saturday at Deaconess Hospital, St. Louis.

The baby, named Paul David, not only checked in at the astounding weight, but also measured 21¼ inches.

"By the time he's ready to play for me," beamed Morrison, "I figure he'll be 6-8 and 240 pounds."

The baby reports wife and child are doing fine.

Grants' and Grosins'

Ken Parker Appointed Joliet Athletic Boss

Ken Parker, former captain of the Granite City high school basketball team, has been named athletic director at Joliet Township High School and Junior College.

Parker, who also played on the University of Illinois team, has been basketball coach at Joliet for 11 years.

BASKETBALL

LATE CONFUSION. After a fine first half, the basketball forces of Madison high school became a bit disorganized in the late going Friday night. Here, with 2:45 left in the game, Madison's Paul Lusk (42) looks for a teammate as Collinsville's reserves close in to harass him. The Kahoks are Rich Moore (arm outstretched) and Lee Clark.

Pictorial Review Of Quad-Cities Area Advancement, Events In 1963

THE NESTLE CO., INC., re-opened its new and enlarged plant on Aug. 6, providing jobs for more than 100 employees, nearly two years after a disastrous explosion wrecked the plant, taking the lives of two workers, on

Aug. 9, 1961. The plant, capable of producing more than 50 million jars of instant coffee a year, was dedicated in ceremonies led by Hans J. Woffelsberg president of the world-wide corporation.

DREAMS BEGIN TO COME TRUE with the start of construction earlier this year of the new multi-million dollar Quad-City-Edwardsville campus of Southwestern Illinois University. Work continues on the first three structures on the campus in the scenic bluffs—the general classrooms,

library and science buildings. Opening of the new campus which had been set for the start of the next fall term in September was delayed generally because of unforeseen difficulties with the soil substructure in providing strong foundations for the massive buildings.

THIS WAS OCTOBER, a mild weather month, and water ski enthusiasts took advantage of high temperatures to prolong their sport on Horseshoe Lake. However, while water skiers continued, the number of swimmers using the lake dropped considerably during the month.

PRESIDENT JOHN F. KENNEDY'S assassination on Nov. 22 brought grief and shock to Quad-City residents as well as to the nation and the world, and one month later a memorial to the late President was dedicated on the lawn of Venice-Madison American Legion Post 307 where he had spoken to crowds during the 1960 election campaign. About 200 persons braved bitter, freezing cold weather to attend the dedication on Dec. 22.

GRANITE CITY'S NEW MAIN POST OFFICE building at 24th street and Madison avenue opened on Nov. 13—just in time for the Christmas mailing rush. The \$313,277 structure with nearly 16,000 square feet of floor space elim-

inated the 50-year-old downtown post office and the Kate Street Station. A dedication ceremony is planned for the spring of 1964. The downtown building is being taken over by the Granite City school district.

GROUNDBREAKING CEREMONY for Granite City's new post office building took place on a sunny day in January. Wielding the shovels are Mayor Davis (left) and Postmaster W. T. Overbeck. Construction was started in March.

AIR POLLUTION STUDIES were started in 1963 throughout the Illinois-Missouri metropolitan area by the Interstate Air Pollution Study of the U.S. Public Health Department. On Feb. 28 engineers of the interstate organization placed an air pollution measuring instrument on the roof of the telephone building, 21st street and Edison avenue. Since then other types of instruments have been placed in operation on the roof of the city hall building in Granite City and on utility poles in Madison, Venice, Granite City and the surrounding rural areas.

No. 2 IN ILLINOIS. Granite City high school's baseball team that captured second place in the Illinois state tournament, losing to Maine West 3-1 in the championship game. Members of the team, from left, were: front row—Larry Kofahl, Terry French, Glenn Hoffman, Rich Lee, Jim Cavanaugh and Bob Kenney; standing—Assistant Coach

Don Brumleve, Pat Harris, Marly LeVault, Bob Fanning, Bob Scharf, Larry Dillard, Dick Frizzell, Joe Hauptman, Al Taylor, Ron Yates, Charlie Papp, Assistant Coach Gale Garbe, Bob Karandjeff and Head Coach Joe Fedoraj; not in photo—Norm Wilfong. This photo was taken immediately after the championship game at Peoria.

DRAMATIC RESCUE of a workman pinned to the framework of a water tower on Nov. 8 at the former American Car & Foundry Co. plant in Madison. Despite heroic efforts in lowering him from his 85-foot perch, the workman, William Coats, 32, of St. Louis, died that night.

CONCRETE TOWERS appeared in the Mississippi River during 1963 as work progressed on the new bridge a short distance north of the Madison-owned Chain of Rocks bridge. The new four-lane structure, due for completion in 1965, will carry Interstate Route 270.

25 YEARS AGO

THURSDAY, DEC. 29, 1938
The Faithful Workers class met Tuesday evening in the home of Mrs. Lillie Overby for a Christmas party.

Those present were Mrs. Bert Allen, Mrs. M. Martin, Mrs. M. Miller, Mrs. Effie Chapman, Mrs. Harry Martin, Mrs. Jess Overby, Mrs. James Walter, Mrs. Louis Benner, Mrs. Chester Latham, Mrs. E. Latham, Mrs. M. Wordell, Mrs. N. Bone, Mrs. Bud Stubbfield, Mrs. N. Crayton, Mrs. William Arms, Mrs. Hoffman, Mrs. Phillips, Mrs. Ernest Overby, Mrs. George Wright and Mrs. L. Fulham.

Mr. and Mrs. Herschel Shoemaker spent Christmas with Mrs. Shoemaker's mother, Mrs. Emma Hunt, Wiona, Mo. They spent Monday and Tuesday visiting relatives in the town of Spring and Houston, Mo.

Mr. and Mrs. John Cole and son, J. W., had as guests for the Christmas holidays Mr. and Mrs. Monroe Cole and daughter of St. Louis, Mo. and Mrs. L. H. Holt, St. Louis, Mo. and Mrs. Otto James and son, Elvin Lee and Mrs. Cecil Green and children.

Alderman Walter Ramsey of the Fourth Ward motored to the north, Mo., on Christmas Day and visited his parents, Mr. and Mrs. George Ramsey of that city. He was accompanied by his son, Jack, and his brothers, Harry and Oliver Ramsey, who also reside here. They returned home on Monday.

The annual Christmas party of the Methodist Ladies' Aid was combined with a handkerchief shower for Mrs. C. O. Shumway, whose birthday occurs on Christmas Day.

The party took place in the church basement and the luncheon table had Christmas decorations, with a miniature tree as centerpiece and Santa Claus favors.

Ten babies were born at St. Elizabeth Hospital during the past week, five of whom were born on Christmas Day. One girl and four boys were born on Christmas.

Rev. Robert E. Knight will begin his duties Sunday as pastor of the West Branch Baptist Church. He comes from the First Baptist Church, Elvira, where he was a worship service from 8 p.m. to midnight Saturday.

Robert Cease and his house guest, John Wannamaker, Seattle, Wash., left today for Chicago, where they will spend the holidays with friends. Cease expects to return home Monday. Wannamaker and Cease are students at Princeton University.

Mr. and Mrs. William Fossick motored to Granite City to spend

SOCIETY

Miss Gloria Ziatz Becomes Bride Of Lon S. Wadman

Miss Gloria Lorraine Ziatz, daughter of Mr. and Mrs. Steve Ziatz, 2656 Benton street, became the bride of Lon Stewart Wadman, a son of Mr. and Mrs. Lon Williams Wadman, 5701 Ramsey dr., Floridell Hills, St. Louis, Friday evening at First United Presbyterian Church.

Rev. David B. Maxton performed the 7 o'clock ceremony and a reception was held afterward in the church fellowship hall.

The bride was attired in a gown of Chantilly and rose point lace made with a molded bodice and a modified sash. The neckline scalloped and etched with sequins and pearls. The sleeves were long and tapering at the wrists and the skirt was full with puffs of lace from the waist down the back of the gown which ended in a chapel train. A veil of silk illusion was held in place with a large silk organza rose topped with pearls and sequins. White roses were combined with lilies of the valley in the bride's bouquet.

Kenneth MacClatchey presided at the organ and accompanied the soloist, Mrs. John McCabe Moore, in several appropriate sections.

Mrs. Martha Martyn, matron of honor, and Mrs. Annette Scrum, bridesmaid, were dressed alike in red velvet. The gowns were designed with floor-length

bell-shaped skirts, long sleeves and scoop necklines. They carried arrangements of white carnations and Fuji pom poms.

A little flower girl, Susan Thies, wore a red velvet lace-trimmed frock and carried a basket of petals.

Mrs. Ziatz wore a beige suit with green cymidium orchids in a corsage, while the bridegroom's mother chose a light green brocade suit and a corsage of white orchids.

Fred Kaplan was best man and serving as groomsmen and ushers were Jerry Lee McDowell, Robert Martyn, and Jean Peak.

The bride's parents gave the reception at the church. The newlywed pair left directly afterward for a honeymoon in Hannibal, Mo. When they return they will establish their home in St. Louis.

The former Miss Ziatz attended Northwestern University and William Jewell College where she became a member of Alpha Delta Pi sorority.

VISIT IN COLORADO
Mr. and Mrs. Charles Haug, 2415 Logan avenue, with Mr. and Mrs. John Haug of Mowena, Ill., have returned from Littleton, Colo., where they visited Mr. and Mrs. Del Kercher over the Christmas holidays.

MISS JACQUELINE WALLIS, a bride-to-be. Her engagement to Leonard L. Martin, a son of Mrs. Ida Martin, 2845 Ralph street, and the late Robert L. Martin, is announced by her parents, Mr. and Mrs. Thomas H. Wallis, 3009 Willow avenue. The wedding will take place in May.

GRANITE CHAPTER OES MEETS
A stated meeting of Granite Chapter 650, Order of Eastern Star, was held Friday evening with approximately 50 attending.

Mrs. Dorothy Fitzpatrick, worthy matron, and Grover Brannan, worthy patron, were the presiding officers.

Mrs. MacDonald Is Hostess For Groups

The pupils of Mrs. Oranza MacDonald, with their mothers, met in the home of their teacher, 1729 Primrose avenue, for informal holiday parties Friday.

The younger students were entertained in the afternoon while the older group attended an evening party. A portion of a Christmas recording was heard and there were musical numbers by individuals.

Awards were made to the winners of a scale contest. The first went to Linda Baumann, second to Jon Tarpoif, and there was a third place tie between Mary Helen Nyberg and Dennis Durbin.

Refreshments were served to those mentioned and to David Nyberg, Billy and Sally Skirball, Stephen Wilson, Shelly Weiss, Pat Tarpoif, Barbara and Debbie Berger, Mike Brunson, Mary, Craig and Alex Tarpoif, Susan and Linda Lybarger, Linda Krutz and Mary Ann Milnarec.

VISITS GRANDSON
Mrs. C. A. Uzzell of State street, returned Friday from Chicago where she spent Christmas and a part of the holidays with her grandson, R. L. Marshall, an family. She was joined there by her son-in-law and daughter, Mr. and Mrs. T. J. Marshall of Detroit, Mich.

Open House At Thompson Home

Mr. and Mrs. Malcolm Thompson, 4170 Breckenridge lane, held open house Sunday afternoon and evening in honor of their holiday house guests, their sons and daughters-in-law, Mr. and Mrs. Donald M. Thompson of Charlottesville, Va., and Mr. and Mrs. Hadley E. Thompson and daughter, Beth, of Houston, Tex., and Miss Kathleen Newland of Chicago. Approximately 50 were present.

They were assisted by their daughter and son, Miss Barbara and Ralph Thompson, and Miss Kithi Winkle.

Out of town guests were Mr. and Mrs. E. J. Ballweg and Dr. and Mrs. George Dean and son, Jim, of Edwardsville, Mrs. W. E. Kuehn and daughter, Cathy, of Florissant, Mo., and Mr. and Mrs. Lloyd M. Hill and daughter, Barbara, of St. Louis.

David and Miss Kathryn Thompson, students at Southern Illinois University, Carbondale, are also at home for the holidays.

Cline-Turley Wedding
Announcement has just been made of the marriage Dec. 21 of Mrs. Junitta Turley of State street, and Ernest Cline, 1208 Niedringhaus avenue.

The ceremony was performed by Justice of the Peace Harry Hartman.

The bride is employed at the First Granite City National Bank. Mr. Cline is a plumber.

RETURN FROM EAST
Dr. and Mrs. Leo A. Roman, 3213 Cottage place, have just returned from a vacation trip to Baltimore, Md., where they visited their son-in-law and daughter, Sgt. and Mrs. Harold Rineberg and family. They were away ten days and while on the trip visited the grave of the late President Kennedy and toured the White House while it was yet in mourning for the President.

Martin-Wallis Engagement Is Announced

Mr. and Mrs. Thomas L. Wallis, 3009 Willow avenue, are announcing the engagement of their daughter, Miss Jacqueline Wallis, to Leonard L. Martin, a son of Mrs. Robert L. Martin, 2845 Ralph street, and the late Mr. Martin. The news was told at a family party in the Wallis home during the holidays.

The prospective bridegroom is a student at Bailey Technical School of Electronics and is employed by McDonnell Aircraft Corp., St. Louis. Both young people are graduates of the Granite City high school.

Their wedding will take place May 16.

Smith-Knobloch Nuptials At Sacred Heart Saturday

In an 11 o'clock ceremony Saturday morning at Sacred Heart Catholic Church Miss Joyce Knobloch, a daughter of Earl Knobloch, 2145 East 24th street, was married to William Smith, a son of Mr. and Mrs. Joseph Smith of Harding avenue. The Rev. Walter Weerts officiated.

The bride wore a white street-length dress, a short veil and a corsage of carnations. The attendants were Mrs. Pat Green and Roger Knobloch.

The newlyweds will live on Cavaca street. Mr. Smith is employed by the General Steel Industries, Inc. His bride attends a beautician school.

Miss Humphrey Is Honoree

Miss Karen Humphrey, who will be married Jan. 11 to James M. Wolf of Madison, was honored Sunday afternoon at a bridal shower given by Mrs. Thelma Skelly, Mrs. Catherine Heeren and Mrs. Genevieve Summers at the American Legion hall.

After the gift packages were opened there were games for entertainment, and refreshments were served to Mesdames Mary Marler, Maxine Unger, Nita Foley, Carrie Moore, Veronica Wickham, Josephine Jones, Vera Harmon, Ruth Alexander, Connie Craft, Patsy Gerber, Wilma Holland, Brenda O'Beir, Thelma Humphrey, Mary Humphrey and daughter, Lori, Kathryn Grissom, Lucille Guthery, Marie Rose, Edith Gentry, Julia Kibbons, Sandra Shirey, Virginia Gaddwell, Laura Papp and daughter, Denise, Clenna Vaughn and daughter, Christina, and Inez Humphrey, Misses Lynda Douglas, George Ann Thomason, Sandra McCarty, Brenda Alexander, Marie Mercier, Brenda Grissom, Leslie Skelly, Paula Summers and Nancy Summers and the honoree.

Halliburton-Smith Wedding Saturday

Miss Joyce Ann Smith, a daughter of Mr. and Mrs. Arthur Smith, 2020 Sleen street, Madison, and Pvt. Louis R. Halliburton, whose parents are Mr. and Mrs. Louis Halliburton, 2613 Center street, were married Saturday evening at Second Baptist Church.

Rev. W. L. Showers officiated at the six o'clock service. Attendees were the parents of the couple.

Pvt. Halliburton, stationed at Fort Campbell, Ky., will return to duty Jan. 3. His bride will remain here for the present.

VISIT NEW GRANDSON

Mr. and Mrs. C. L. Baker and their daughter, Deby, 2812 Grand avenue, spent the weekend in Kansas City, Mo., visiting their son and daughter-in-law, Mr. and Mrs. Byron Baker, and their new grandson.

HOLIDAY GUESTS

The home of Mr. and Mrs. Elmer Voegel and daughter, Ellen Fay, 1809 Fourth street, was decorated in keeping with the Christmas season with the tree aglow, as their Christmas guests and relatives arrived.

Turkey dinner and supper with all the trimmings were served by the hosts to Mrs. Fay Little, Madison, mother of Mrs. Voegel, Voegel's parents, Mr. and Mrs. Elmer Voegel sr., Collinsville, and Mr. and Mrs. Joseph Voegel and daughters, Janet and Debbie, of Goffrey and Thomas Soriano of Collinsville.

Relatives calling at a later hour were Mr. and Mrs. Frank Soriano and daughter, Trudi, and Mrs. Robert Turnbull of Collinsville. Gifts were exchanged and opened.

CHRISTMAS VISIT

Mr. and Mrs. John Dougher and children, Johnny and Chris, of Bay St. Louis, Miss., spent the Christmas holidays with Mr. and Mrs. George Hommert and daughters, Misses Marian and Joan Hommert, 1919 Fourth street, Madison.

Mrs. Dougher, a former Madison resident, is spending time with relatives and friends while

at the Hommert home. Christmas gifts were opened by the group. A turkey dinner was served by Mrs. Hommert to the Dougher family and Mr. and Mrs. Hilbert Hoekstra and Harry Hoekstra. Mrs. Dougher and Mrs. Hommert are sisters.

HOLIDAY GATHERING

Mr. and Mrs. Neel Williams and daughter, Joan, 1838 Sixth street, entertained with a Christmas dinner in their home Christmas day. Mr. and Mrs. Don Williams and daughter, Kimberly Ann, of Collinsville arrived at the home early Christmas morning to exchange and open gifts with their parents and sister.

Breakfast was served, after which the Williams family went to the home of Mrs. Williams' parents, Mr. and Mrs. Bernard Josten, to have dinner and a gift exchange with a number of relatives. Dinner was served in the evening to Mr. and Mrs. Don Williams and daughter and Mr. and Mrs. Joseph Richardson and son, David, by Mr. and Mrs. Neel Williams.

SURGERY PATIENT

Louman Reynolds, 1731 Third street, returned to the hospital Thursday for surgery. He is a patient in the Christian Welfare Hospital, East St. Louis.

HOLIDAY GUESTS

A net and felt bar, and Mrs. Santa Claus table cover, made by a friend for Mr. and Mrs. Gene Daley and daughter, Judy,

Granite City PRESS-RECORD

Page 10 Mon., Dec. 30, 1963

417a Madison avenue, was an attraction for guests and friends arriving at the home over the holidays. The remainder of the home also was decorated, and there were packages around the lighted tree Christmas Day.

Dinner guests at the home included Dr. and Mrs. Philip Daley and son, Steven, of St. Louis, Rev. and Mrs. Harry Colquhoun of the First United Presbyterian Church of Madison and Richard Zeisler of Edwardsville. Other guests arrived during the evening hours.

HOLIDAY VISIT

Mrs. Edna Lewis returned to her home in Madison Saturday after spending the holidays with a granddaughter, Mrs. Norman E. Burgess, and her husband and sons, Norman Jr. and Robert, at Newport News, Va.

Burgess is stationed at Fort Eustis, Va. Mrs. Burgess is the former Mildred Michele, daughter of Mr. and Mrs. John Michele, 1728 Fifth street, Madison.

The trip was the first by air for Mrs. Lewis. She traveled by jet to Baltimore, where she transferred to another plane for the remainder of the journey. Mrs. Lewis saw President Kennedy's grave, the Capitol and other points.

HERE FROM SOUTH

Mr. and Mrs. William Rhoads and twin sons, Jim and John, of Memphis, Tenn., are visiting with their parents, Mr. and Mrs. Frank Rhoads and family, 1511 Marietta street. Mr. and Mrs. Eldon Rhoads and daughters and Mr. and Mrs. Charles Voloski and a family spent time at the Rhoads home visiting and exchanging gifts with the family on Christmas day.

NEWLY-INSTALLED OFFICERS OF Granite City Masonic Lodge 877 AF&AM: Front row, left to right—Robert James, Joseph Timmons, chaplain Vernon Clutz, junior deacon, and Preston Ridinger, treasurer. Middle row—Lloyd S. Lewis, secretary; Gerald Fitzpatrick, organist; Gerald Exzell, senior steward; and William Cariss, Tyler. Back row—Grover Brannan, senior deacon; George Lipscomb, senior warden; E. Clinton Bensch, worshipful master; Luther Smith, junior warden, and Edward Lane, junior steward.

Right-Of-Way Charge

Perrin J. Muir, 36, of 500 Main street, Venice, was charged with failure to yield the right-of-way in an automobile accident with Jacob J. Wachter, 46, of Rural Route One at 6:40 p.m. Friday at 18th street and Delmar avenue. The accident report said Wachter had halted at the four-way stop and proceeded when his station wagon was struck in the right side by Muir. Both cars were damaged.

FREE TOUR LITERATURE AT HOLIDAY SERVICE.

Pays \$17 Fine

Joseph Ray, 2001 Washington avenue, was brought to the police station by the patrolman at 10:30 p.m. Friday for failure to pay a \$17 fine on a previous peace disturbance charge. He later paid the fine and was released.

Hit-Run Accident

The rear end of the pickup auto of Glen Bigham, 29, of 268 East 24th street, was damaged Friday night when the car was parked in front of his home and was struck by a hit-run motorist.

South Venice

MRS. DELORES BOSWORTH
623 Lincoln Avenue
TR. 7-6488

Mrs. Gertrude Dummire of Third street spent Wednesday as a guest of Mr. and Mrs. Alfred Pfeiffer. Other guests for dinner were Mr. and Mrs. Ernest Dettloff and daughter, Margie.

Mr. and Mrs. Milton Morris of Broadway entertained with a holiday party in their home last week. Following a social hour, a buffet luncheon was served to Mr. and Mrs. Del Blumenthal and daughters, Beverly and Linda, Mr. and Mrs. Dan McGee and Mr. and Mrs. Paul Morris and children, Kathy, Jan and Doug.

PAST PRESIDENTS ENTERTAIN AUXILIARY

Past President of Venice-Madison American Legion Auxiliary Unit 307 entertained members of the auxiliary at a Christmas party on Thursday evening. Past presidents who served as hostesses were Mrs. Dorothy McGrath, Miss Dorothy Hinson and Mesdames Maxine Simmons, Hazel Hinson, Ann Taylor, Roy Hindman, Frances Cowley and Elizabeth McGrath.

A two-course luncheon was served and gifts were exchanged. Games were played and dancing was enjoyed. Music was furnished by a trio through the musicians' Performance Trust Fund. Members of the trio were Ollie Whitlock, Lorene Krause and Charlie Peterson.

Others present were Donna Naselrod, Joyce Anstra, Virginia Koehnman, Viola Harrison, Norma Hillmer, Virginia Peach, Clara Simmons, Beulah Sizemore, Fern McMonigle, Estella Bone, Virginia Bone, Dorothy Montrey, Mary Baletine, Berna Baletine, Linda Baletine, Faye Smith, Veronica Kula, Nettie Gnojewski, Ethel Moore and Irma Turnbull.

DINNER GUESTS

Mr. and Mrs. Larry Schmidt, 620 Lincoln avenue, entertained guests in their home on Christmas Day.

Dinner was served to Mr. and Mrs. Anthony P. Schmidt and Miss Margaret Green of Collinsville, Ill., Rev. Anthony Schmidt, Mrs. Betty McConnell of Grafton, Mrs. Marie Kahn of Springfield, Rev. Robert McCarthy of Venice and Laurie, Robert, Richard, and Rita Schmidt.

CLUB MEMBERS HOLD HOLIDAY PARTY

The Yak Yak club enjoyed a Christmas party at the home of Mrs. Fern McMonigle on Friday. Gifts were exchanged and games were played.

Refreshments were served to Mesdames Grace Backs, Faye Smith, Clara Simmons, Estella Bone, Beulah Sizemore and Ethel Moore.

The next meeting will be held at the home of Mrs. Moore on Jan. 6.

Guests for Christmas at the home of Mr. and Mrs. Floyd Painter of Graniteville street included Mr. and Mrs. Kobitz and sons, Dickie and Tommy of Caseyville, Mrs. Virginia McDowell and Mr. and Mrs. Bill McDowell of Granite City and Mr. and Mrs. Ralph Painter and David Painter of Venice.

MISSOURIANS HERE

Mr. and Mrs. C. N. Bain and children, Janet and Debbie, of St. Louis, Mo., returned to their home Saturday after visiting with Mr. and Mrs. Calvin Bosworth and family, 623 Lincoln avenue.

Other guests on Saturday included Jim Meyers of Caseyville and Eddie Bain and Mr. and Mrs. Roy Benner and children, Diane, Robbie and Kim, of Granite City.

PLAN INSTALLATION

Venice Royal Neighbors will hold their installation of officers on Wednesday, Jan. 8, at the Old Fellows hall.

Auto Hits Fence

Altonzo DeRuntz, 26, of 2145 Grand avenue, was charged with careless driving about 2:30 a.m. Sunday after his southbound auto struck the fence of General Steel Industries along State street at 15th street. DeRuntz escaped injury. Two sections of the fence were torn down.

Pontoon Beach & Stallings

MRS. MABEL KENNEDY
888 Lake Street
TR. 6-5040

HOLIDAY VISIT

Mr. and Mrs. James Hodshire, 3829 B street, returned home Thursday after spending the Christmas holidays with their father, Oscar Hodshire, at Ava, Ill.

Mrs. Mabel Kennedy and children, Charlene and Eddie, and Cindy Richardson visited Thursday with Mrs. Gladys Strickland and children, Linda, Paul and Ruthie, at Edwardsville.

ENTERTAIN AT DINNER

Mr. and Mrs. Earl Young entertained with a Christmas dinner. A live flowering orchid centered the table.

Guests present were Mr. and Mrs. William Campbell and children, Diane and Billy, Mr. and Mrs. Jacob Gettelman and children, Alan and Sally, and Mrs. Rachael Vargo.

Mr. and Mrs. James Hodshire visited her sister and brothers-in-law Mr. and Mrs. Leonard Strickland and Mr. and Mrs. Leroy Gardner, at Affton, Mo., Saturday.

HOME FROM KENTUCKY

Mr. and Mrs. Edna Kennedy and Charlene and Eddie Kennedy returned last week from spending three days at Murray, Ky., visiting his parents Mr. and Mrs. M. C. Kennedy, Mr. and Mrs. Richard Scarborough, Mr. and Mrs. James Farris and son, Jamie, Mr. and Mrs. Buster Kennedy and Mr. and Mrs. Jay Fullitt.

Mr. and Mrs. Earl Young and Mr. and Mrs. Jacob Gettelman and children, Alan and Sally, were dinner guests Sunday at the home of Mr. and Mrs. Charlene Stelt of Collinsville. The evening was spent playing games.

Night Off Tonight For GC Aldermen

Granite City council members will not meet this evening—the fifth Monday of the month.

Mayor Davis said there was nothing important enough to call a special session, as the council last week adopted an ordinance authorizing a \$175,000 revenue bond issue for construction of a sewage treatment plant.

The state Sanitary Water Board has issued its Dec. 1 deadline to January, since the board canceled its December meeting.

The council meets regularly on the first, third and fourth Mondays of each month, with the second Monday reserved for an unofficial meeting of council committee chairmen.

Man Charged In Accident

Jack Peters, 26, of Belleville, was charged with following too closely after his auto struck the rear of a car driven by Leo Smith, 63, of 2412 Madison avenue, as he was making a right turn into his driveway at 7:30 p.m. Thursday. The vehicles were damaged at the point of impact.

Dry Smallpox Vaccine To Be Made Available

Something new in smallpox vaccinations will be available in several weeks for mass inoculations such as in clinics or schools. Dr. Franklin D. Yoder, director of the Illinois Department of Health, announced last week.

The new one-use multiple vaccinator will be available in conjunction with the dry smallpox vaccine which the department started distributing two years ago. The dry vaccine, which does not require cold storage or special packaging in dry ice for shipment (as does the liquid vaccine) can be stored at room temperature for a year and a half before being reconstituted. After reconstitution the prepared vaccine can be kept in a refrigerator for three months and retain a stable potency.

The dry smallpox vaccine, together with the new vaccinator, will be available to private physicians upon request. Dr. Yoder said, as so far 20 dose packets are obtainable from the manufacturers. At present, it is packaged in 100 doses, but the smaller packets should be available in six months.

Novich's Are Godparents For Theresa Hecimovic

Mr. and Mrs. George Novich, 1644 Second street, Madison, have just been notified that they were selected as godparents at the baptism Dec. 8 of Theresa Marie Hecimovic, in Toronto, Ontario, Canada.

The infant, born Nov. 8, is named for the mother of the late Matt Hecimovic of Madison.

Hit-Run Motorist Knocks Garage Off Foundation

A garage at the rear of 923 Grand avenue, owned by Pete Pecunia of that address, was knocked off its foundation Saturday night when struck by a hit-run motorist. It was reported to Madison police Sunday morning.

A corner of the frame garage also was damaged.

Second Street Mishap

Autos driven by David Zazeff, 40, of 2408 Cardinal avenue, and Lonnie Calmes, 31, of 407 Seib street, Venice, were involved in a collision Saturday afternoon on Second street between Alton and Highland avenues. Madison police said Zazeff was making a turn onto Second street and Calmes was going east.

Granite City Press-Record 11th Annual

BUSINESS REVIEW AND FORECAST

What do Quad-City area business and financial leaders foresee for 1964? They are even more optimistic than a year ago, when their expectations of growth and prosperity in 1963 were borne out.

Confidence is based not only on the currently strong national economy but also on favorable local factors. More than the usual number of specific examples are cited:

Industrial — Laclede Steel, General Steel and Johns-Manville are continuing their expansion programs and Reilly Tar & Chemical has plans for a major plant addition to manufacture paraffin products. Union Starch will increase capital spending here. American Steel is hiring more workers and Dow Metal is entering new alloy and aluminum fields.

Governmental — The Army Depot is adding two new missions and will boost its military and civilian payroll by nearly \$3 million. Further highway and street work is scheduled, and construction of a sewage treatment plant will end the ban on Granite City sewer connections, encouraging new homes, apartments and businesses. School

additions and 100 new federal housing units are planned, a new park is to be created. Corps of Engineers expenditures will total \$495,000, new buildings will go up on the local university campus and the Bi-State Agency and Port District will further expand Granite City harbor activity.

Utilities — Expenditures will begin for a \$1 million telephone central office in the northern part of the Quad-City area, and \$1 1/2 million will be spent on water system extensions. Two new electric substations will be built and a huge new power generating unit will go into operation.

Commercial — Two new motels, a large nursing home and a 12-store shopping center will be constructed and retail facilities and services will be improved. A new golf course will be opened.

With stable prices, high sales, employment and personal income, the likelihood of federal tax reductions and continued bright growth prospects, the consensus is that Quad-Cityans have it within their power to make 1964 a year of real progress.

Illinois Power Co.

By Carl E. Mathias, Service Area Manager

Illinois Power Company expects industrial growth to continue and looks for an even greater rise in residential growth in the Tri-Cities in 1964. The company's plans for this year during the year reflect this optimistic viewpoint.

Housing starts should be stimulated significantly by new construction projects at Southern Illinois University. This outlook apparently is shared by interests which supported construction of a new shopping center at Namokri road, plus new motels.

Industrial electric requirements were higher during 1963 and we expect this growth to maintain its momentum. Several industries are in the process of expanding facilities. The Tri-Cities have continued to maintain an electrical growth rate slightly higher than the national average.

Gas, Electric Expansion — To support this optimistic outlook, Illinois Power Company expects a considerable requirement in capital outlay here in the new year. These funds are used to expand and improve service in distributing both natural gas and electricity.

Capital expenses in connection with the new generating unit at the company's Wood River power plant are estimated at several million dollars for 1964. This new facility will be put into service during the year, generating 385,000 kilowatts of energy and bringing the company's total generating capacity to over one million kilowatts.

This new unit alone will provide enough power to serve the Tri-Cities and several other communities with a population larger than the Tri-Cities.

Expansion of natural gas service to new and existing communities will decline relative to the past several years. The company anticipates a high percentage of this work rapidly by devoting a major portion of its efforts to electric service.

This rapid expansion was made possible through negotiations with gas suppliers and the development of underground storage facilities which allowed the company to make natural gas service available to virtually all communities in the area.

American Steel Foundries

By A. P. Steinhilber, Works Manager

The 1964 business outlook is encouraging both for the national economy and the Granite City plant of American Steel Foundries, Incorporated.

Economists around the nation are predicting generally better business for nearly all segments of the economy. Some predictions place the gross national product at about 650 billion dollars in 1964, a jump of about 45 billion from this year. A tax cut early in the year could give this an added boost.

This better business climate already has been reflected in production at the ASF Granite City plant. Output of ASF's cast steel railroad components increased in the closing months of 1963.

Hiring In Progress

Further increases are expected in January. Additional employees are being hired because of this upswing. While it is impossible to precisely predict business trends for all 1964, presently increasing railroad demand for ASF products indicates the year will be better than 1963.

A brighter business picture for our nation's railroads gives further foundation to this optimism. The outlook for purchases of new freight cars in the next several years is favorable.

Reasons For Optimism

This encouraging trend toward a healthier railway industry stems from five factors:

- (1) More cars available to haul freight cars because of changes in depreciation schedules as well as tax credit for investment.

- (2) New business attracted by specialized freight cars.
- (3) Rate reforms.
- (4) Possible mergers.

- (5) The impending changes in work rules to eliminate featherbedding.

Because of these factors, greater modernization of railway equipment may be expected.

40,000 Freight Cars

Looking back for a recent sales of ASF railroad products in the fiscal year ended Sept. 30, 1963, increased from fiscal 1962. The railway industry ordered 49,000 new freight cars during the 1963 fiscal year, the

greatest number since fiscal 1957. This, of course, aided ASF. At Sept. 30, 1963, the national backlog of freight cars to be built was more than 18,000, up from 11,000 a year earlier.

The majority of cars being purchased are special-purpose types with higher carrying capacities. These bigger cars require heavier cast steel components.

To keep abreast of this trend, ASF research has developed and introduced several new products. One is the new Ridemaster truck which features rubber-controlled lateral action. This provides high-speed riding performance superior to any other known truck for freight service.

Six-Wheel Trucks

Another development is a modern Ride Control six-wheel truck for use on freight cars exceeding 100 tons capacity. This truck was officially introduced at the American Railway Progress Exposition held in Chicago during October 1963.

In addition to serving the nation's railroads, the ASF Granite City plant continued to make a substantial contribution to the economy of the Granite City area.

In the company's 1963 fiscal year, the ASF plant paid \$450,000 to employees in wages and salaries. The plant averaged \$10 employees in the year.

A. O. Smith Corp.

By Nicholas R. Brink, Plant Manager

Automobile sales continue to be a major indicator of the state of the nation's economy. Sales of 1964 cars have started at a high pace and lead the almost-record pace of 1963.

A. O. Smith Corporation's Granite City Plant participates in the automotive industry action as a manufacturer of frames for Chevrolet, the nation's automotive sales leader. Currently, Chevrolets are being sold at a record rate.

A. O. Smith also manufactures passenger and truck frames and parts at its Milwaukee plant for many other vehicle manufacturers.

Sales Predictions

Automotive industry spokesmen are predicting total sales for the 1964 model will be almost as high for 1963.

The general economic outlook for the coming year appears to be good, and all of these facts indicate stable continuing production at the Granite City plant.

With signs of an increasing market for the separate isolated frame (as compared to the integral frame) in passenger car construction, competition is intensifying in the frame supplying industry.

Reilly Tar & Chemical Corp.

By K. J. Morrison, Plant Manager

The local Reilly Tar & Chemical Corporation plant, one of 14 owned by the Reilly family with headquarters at Indianapolis, Ind., is perhaps one of the least known of companies in the Granite City area. This plant was erected in 1922, and it has operated continuously ever since.

Its operations begin with the processing of crude liquid coal tar, which is manufactured from the distillation of coal in coke ovens located in steel mills and in commercial coke producing plants. The crude coal tar is distilled—the distillate removed is creosote oil—and the residual product remaining in the still is coal tar pitch.

Many different types of pitches are produced in this manner, and these pitches are normally seen in a solid lump state. The pitches are used by waterproofing companies, by roofing companies and in steel foundries, but mainly in the manufacture of carbon electrodes, through which electricity may be passed into electric furnaces.

The principal use of carbon electrodes is the aluminum industry, which manufactures aluminum through electrolysis. Creosote oil is used universally in the wood preserving industry to retard the destructive forces of termites. Principal products of these wood treating industries, when they have used creosote oil, are telephone and power poles, railroad cross ties and industrial wood block flooring.

Naphthalene Refining — The Granite City plant is unique in that it is a major refiner of naphthalene.

There are two types of naphthalene, one called coal tar naphthalene and the other, petroleum naphthalene. The coal tar naphthalene is again a by-product of the coke oven process. Petroleum naphthalene, as the name might imply, is produced not from coal, but from petroleum products.

The Granite City plant purchases the crude naphthalenes and, through refining processes, moth preventives in the form of moth balls and moth flakes, materials for the local plant are produced through chipped naphthalene, and petroleum field chemicals through the use of several new products recently developed and patented.

Through a news release issued on July 9, 1963, the Reilly Tar & Chemical Corporation announced that it had acquired from the Halliburton Company of Duncan, Okla., the exclusive manufacturing and sales rights to several patented paraffin dispersants for use in the petroleum industry.

The estimated market potential for these paraffin dispersant products is so great that the facilities of the local plant are quite inadequate to process and formulate enough of the material to supply the demand.

Tri-Cities Chamber of Commerce

By Chester L. Baker, President

Things are looking up for the Tri-Cities area. The outlook for business in '64 is good, with a record overall performance in prospect.

A Chamber survey shows that a large majority of the area's firms anticipate greater business in 1964 than in 1963.

This optimistic look-ahead is based on a number of factors. Industrial production and employment will be up substantially, overall construction activities will continue at a high level, personal income will be greater and retail sales are expected to rise above the '63 level.

In the event tax cuts are voted by Congress soon—and the prospects appear to be bright—it would boost our area's growth considerably in 1964.

Eight Favorable Signs

There are many other reasons why we at the Chamber are full of optimism about the outlook of our area's economy. Specifically, some of them are:

- (1) A number of our fine industrial plants further expansions and modernization projects.
- (2) An \$800,000 tank farm and other projects will be developed on the Tri-Cities Regional Port District's Granite City Harbor site.
- (3) Construction of the twelve-store Namsok Village Shopping Center is set.
- (4) Two new motels will be constructed.
- (5) The Arlington Golf Course will be completed.
- (6) A \$650,000 nursing home will be built.
- (7) Apartments will be erected.
- (8) Nine new residential subdivisions will be developed.

College, School Construction — There will be a great deal of activity in the governmental sector of our economy, which also will create jobs and circulate money.

Southwestern Illinois University will continue the construction of the first phase of its new \$25 million campus. Work will continue on the new highways and bridges in the area, additional classroom facilities and churches will be built, and new sewage treatment facilities will have to be provided.

As soon as Granite City authorizes the construction of its new sewage treatment plant, the city will lift its ban on sewer extensions, which will stimulate residential development on land adjacent to the city.

Transfer To Depot — The transfer of 200 military positions to the Granite City Army Depot (1100 to the St. Louis Metropolitan Area) will create a strong impetus for our economy.

With this development, which will take place in 1964, a tremendous vote of confidence in the future of the Tri-Cities area. Without this confidence on the

part of our citizens and outsiders, progress cannot take place. Progress, however, doesn't just happen; it has to be made to happen. That's where the Chamber comes in.

Unique Role Of Agency — The Chamber is, after all, the only agency devoted to the overall growth and development of our community.

We intend to continue this development effort more aggressively than ever.

Every citizen can help this effort by boosting our community at every opportunity. It has so many things we can be very proud of.

Bi-State Development Agency

By Leo A. Fisher, Chairman

History is replete with examples of great men of bygone eras who consulted their pet astrologer to determine future events. We laugh at the credulity of those wise men who glibly read in the stars details concerning events yet to make their appearance. But at least there was one thing to be said for the system—the belief in the certainty of the result sometimes made it come true.

Today, economic forecasting is still an art, rather than a science; how we think, feel, and react to events helps to determine the economic climate in which we live.

Mixed Signs

For the year ahead, the signs are most truly mixed. The nation has indicated amazing political vitality when, after the tragic loss of its leadership, it has given an example to the world of the orderly transmission of leadership which is possible under our democratic form of government.

At the same time, many of the problems which have been the source of unrest and uncertainty during this current year seem no closer to solution. Unemployment is still with us and there is the continuing uncertainty as to whether there should or will be a tax cut, and what its effect might be.

With the continuing uncertainty,

I do not see how anyone can make a positive statement that things will be either materially better or demonstratively worse than they were during 1963.

Economy Sound

I feel that the economic strength of the country is still sound, and that, barring unusual events, the continuing improvement in the standard of living of the general public will continue.

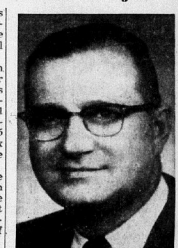

with gas suppliers and the development of underground storage facilities which allowed the company to make natural gas service available to virtually all communities in the area.

Two New Substations — Two new substations are among projects scheduled here for 1964 to meet the increased electric demand and the company forecasts. Nearly two-thirds of the money set aside for this area will be spent on improving and expanding electric service.

Illinois Power Company believes its optimistic forecast for the year now ending was accurate; the internal climate of the Tri-Cities was healthy, and the year was an extremely busy one for the company.

Further industrial expansion and an even greater rise in residential growth prompts another favorable forecast. The development of the Tri-Cities Port Authority should add another feature to this area's already abundant capability to attract new industry.

Illinois Power Company can only continue its optimistic outlook for the Tri-Cities in 1964.

greatest number since fiscal 1957. This, of course, aided ASF. At Sept. 30, 1963, the national backlog of freight cars to be built was more than 18,000, up from 11,000 a year earlier.

The majority of cars being purchased are special-purpose types with higher carrying capacities. These bigger cars require heavier cast steel components.

To keep abreast of this trend, ASF research has developed and introduced several new products. One is the new Ridemaster truck which features rubber-controlled lateral action. This provides high-speed riding performance superior to any other known truck for freight service.

Six-Wheel Trucks

Another development is a modern Ride Control six-wheel truck for use on freight cars exceeding 100 tons capacity. This truck was officially introduced at the American Railway Progress Exposition held in Chicago during October 1963.

In addition to serving the nation's railroads, the ASF Granite City plant continued to make a substantial contribution to the economy of the Granite City area.

In the company's 1963 fiscal year, the ASF plant paid \$450,000 to employees in wages and salaries. The plant averaged \$10 employees in the year.

A. O. Smith Corp.

By Nicholas R. Brink, Plant Manager

Automobile sales continue to be a major indicator of the state of the nation's economy. Sales of 1964 cars have started at a high pace and lead the almost-record pace of 1963.

A. O. Smith Corporation's Granite City Plant participates in the automotive industry action as a manufacturer of frames for Chevrolet, the nation's automotive sales leader. Currently, Chevrolets are being sold at a record rate.

A. O. Smith also manufactures passenger and truck frames and parts at its Milwaukee plant for many other vehicle manufacturers.

Sales Predictions

Automotive industry spokesmen are predicting total sales for the 1964 model will be almost as high for 1963.

The general economic outlook for the coming year appears to be good, and all of these facts indicate stable continuing production at the Granite City plant.

With signs of an increasing market for the separate isolated frame (as compared to the integral frame) in passenger car construction, competition is intensifying in the frame supplying industry.

BUSINESS REVIEW AND FORECAST

First Granite City National Bank

By Harold R. Fischer, President

Business activity in general, in November, was good. But predicting business trends—forecasting—is always difficult, and this year it is more hazardous than usual due to both international problems and recent developments in Washington. These pressures, both real and imagined, exert a powerful influence on our economy.

The immediate response of Congress to President Johnson's plan for unity was very heartening. Since it now appears that all the cabinet officers and most of the presidential advisers will remain for an indefinite period, it probably will be best to assume, even if a little tentative, that the presidential succession in itself will bring few significant changes.

That belief—together with a strong assurance of a tax reduction and a hoped-for curbing of government spending—will be a stimulus in the national growth picture.

Fewer Jobs
Beginning in August of 1963 manpower utilization in the average hours worked showed improvement. Reports for November and advance estimates for December indicate a further increase in unemployment. Improvement in the unemployment situation in the nation reflects a similar situation in the Granite City area.

Most people, although buying

a substantial portion of luxury items on the installment plan, have their financial affairs in fairly good condition, plus having a reserve of savings or unused installment buying power. The backlog, as soon as the potential purchaser is more sure of the future, will be released to the benefit of everyone.

Local banks and loan associations have a surplus of funds to meet the demands for new home financing on a sound basis, and 1964 should see a substantial increase in new home construction.

and major remodeling.

The increased activity in the Southwest Campus of Southern Illinois University program will prove very beneficial. That school is making good progress with the building program. With the millions of dollars just released by Governor Keener, additional buildings will be planned and construction at a high level carried on for several years.

During the past few months the first real signs of activity in the Tri-City Port Authority development have been seen, and the next few months should see major construction in progress. With the completion of even a small portion of the planned development, this area should start reaping the benefits.

Widespread Optimism
Optimism in general is widespread with the belief that nationwide business for 1964 will continue without any serious downturns, but with a level of activity slightly greater than experienced in 1963.

For the Tri-City area, I am confident that the new year will see more and more people recognizing the potential of this community as a desirable place of residence and for new business—and that we can expect with greater assurance of a more satisfactory 64 year.

The J-M Research and Engineering Center at Manville, Co., is the largest in the world

Johns-Manville Products Corp.

By A. W. Buechner, Plant Manager

Employment and operations at the Madison Plant of Johns-Manville Products Corporation continued to show improvement in 1963.

During the first three quarters of the year, the plant operated on a two-shift basis. Seasonal layoffs experienced in previous years were avoided.

Shipments rose 33% over 1962, including asphalt roofing products manufactured locally, as well as asbestos-cement roofing and siding products, fiber glass dome, insulation and allied building materials stocked by J-M at Madison.

It is expected that the high levels attained in 1963 will be maintained during 1964.

New Boiler Building

To keep abreast of the growing construction market, the company continued to expand and improve its facilities at Madison. Among improvements recently completed is a new boiler house building, modern automatic packaged boilers which provide safer, more efficient operation.

Much of this modernization and improvement was accomplished by local contractors. Construction in 1963 increased above the record-breaking levels established in 1962 as was foreseen at year-end 1962. A mild dip in general business occurred earlier this year did not materialize, and the continued boom in construction, 1963 became another record-breaking year.

The J-M Research and Engineering Center at Manville, Co., is the largest in the world

devoted to building materials, insulation and allied industrial products.

Constant Improvement
With these laboratory facilities and pilot plant equipment constantly operating to improve manufacturing processes and develop new products, Johns-Manville works 1964 with optimism.

The company is devoting much attention to extending its position in the plastics building materials field. Marketing experts believe plastic building materials will play a far greater role in all building materials in the years immediately ahead.

Johns-Manville continues pressing forward to new goals in sales and production. The company's growth continues to be a stiff competitor in the market place.

With the Madison plant being a part of this worldwide organization, there is every reason to believe we will continue to grow locally with the company and the economy.

Granite City Trust & Savings Bank

By Ernest A. Karandjoff, President

The tragic death of President Kennedy has introduced an element of uncertainty into the economic outlook of this country.

However, the sureness with which President Johnson has taken over the reins of government and the positiveness with which he has acted is reassuring.

The wisdom of our forefathers in creating our form of government is a constant source of amazement and pride to me.

Our economy as this year closes is exceptionally strong. The indicators of recession are just not present in our business statistics today.

Inventories are at safe levels. Building and equipment over-expansion does not exist. A sound rate of consumer spending has been recorded. Normal steel inventories are being kept at a level to meet the needs of the country.

Everything points to a sound basis for economic expansion during the year 1964.

Fortunately for us, a price stability exists today which is unparalleled in past years. Wholesale prices have remained steady and keen competition has kept inflation under control. Consumer prices have risen moderately, largely because of the rising costs of personal services.

Another strong sign evident today is rising productivity. This

enables us to produce more efficiently. While the rise in productivity has helped to increase our already high standard of living, it has also aggravated our constant problem of unemployment.

This problem is further complicated by an ever-expanding labor force at the rate of about a million people a year. Unfortunately, many of these new people added annually cannot find a place in our ever more sophisticated economy.

It is anticipated that our

Gross National Product will climb to an all-time high of over \$1 billion dollars for 1964. The major impetus to this wonderful growth will be furnished by business capital spending and greater outlays for consumer consumption.

All in all, it appears that our economy will grow at a rate of about 5 1/2% during the coming year. About 1 1/2% of this is because of rising prices. The real growth rate of about 4% is excellent by any standard.

Further, it appears that some tax relief will be furnished to all segments of our economy. It is to be hoped that relief will be given particularly to those areas where our tax structure is discriminatory, as well as confiscatory.

Such relief could result, if great enough, in a business growth unparalleled in recent years.

Local Area Fortune
We in the Tri-Cities are particularly fortunate in that our local business and plant executives are extremely forward looking and capable. Our labor force likewise is well led, and our people are partners in the success of our plants and business.

To be here are fortunate in having a sound base for growth and prosperity well established.

We should thank God for our many blessings!

Laclede Steel Co.

By W. M. Akin, President

It is quite helpful to gauge the situation as it now exists before trying to estimate what will occur in the steel business next year.

As a whole, 1963 was somewhat better than expected last December. Through the year, employment at Madison was uniformly high during the whole year.

Economy Strong
This December finds our economy basically strong, confidence unimpaired; and at the moment, there seems to be no unusual crisis pending that will cause a check in further progress.

True, the unexpected, both domestic or foreign—can occur at any time without warning. But barring such a setback, we are having severe competition at Laclede Steel believe 1964 will be another satisfactory year.

As it looks now, this market should be satisfactory from a tonnage standpoint, at least through the first half and probably for the full year of 1964.

Severe Foreign Competition
We are having severe competition from foreign steel at Tampa, New Orleans and Beaumont. Our fabricating plants at those locations have been fairly successful in holding their customer.

In all, we look forward to 1964 with confidence. The business will be there; but it will be hard to get, and earnings will be a problem.

We at Laclede will try to make it a better year for all.

Our earnings on these products have suffered, as much of this imported steel had been dumped into our markets at prices less than these foreign mills demand at home.

To combat this competition, we have increased our joint capacity and have improved our practices, which we hope will enable us to meet this competition with a better product at a lower cost to our customers.

In all, we look forward to 1964 with confidence. The business will be there; but it will be hard to get, and earnings will be a problem.

We at Laclede will try to make it a better year for all.

Granite City Army Depot

By Col. John M. Ansley, Commanding Officer

This year marks the end of one and one-half years of operation under the leadership of the Supply and Maintenance Command.

In our forecast last year, I stated that the workload and resulting level of employment would continue about the same as for 1962. This has proven to be essentially true.

The announcement by the Department of the Army three weeks ago concerning the reorganization of the depot into a Supply and Maintenance Command, will result in an appreciable increase in mission and personnel at the Granite City Army Depot.

Two New Missions

The Depot has already been assigned two new missions. One is a Marine and Rail Transportation Main tenance mission, which includes responsibility for the maintenance of Army marine vessels and rail equipment throughout the United States. The other is a mission to provide Army customers with supply assistance worldwide in the Fifth Army Area, comprised of 13 states.

These two missions—coupled with the forthcoming increase—will raise the total annual civilian payroll from \$7.3 million to approximately \$8.9 million. In addition to this, a possible increase in military personnel may raise our annual military payroll from \$15 million to approximately \$12 million.

\$2.5 Million Expenditure
In 1964, Depot procurement is expected to expend approximately \$2,500,000 for supplies, materials and equipment for use in Depot operations as well as for

support of troops throughout the world.

In accordance with President Lyndon B. Johnson's policy, the Depot will receive top priority.

The Depot will continue to emphasize the Department of Defense Cost Reduction Program by (1) buying only what is needed, (2) buying at the lowest sound price and (3) reducing operating costs by continuing to increase efficiency.

The planned increase in mission and personnel, coupled with the policy of reasonable austerity, will present an excellent challenge as the Depot continues to play its key role in the Army Supply and Maintenance System.

New Alloys Successful
The plant demonstrated its ability to control aluminum industry by successfully developing a group of new, high-strength aluminum alloys, producing both extrusions and plate in these materials.

Production of these alloys is expected to grow gradually over the next several years.

Production of these alloys is expected to grow gradually over the next several years.

The loss of our large aluminum rolling mill is a serious matter to our rolling mill, is expected to be replaced in part by the expansion of the mill of magnesium in the printing field and by the use of the metal for other products, including containers and other applications.

Dow Metal Products Co.

By Gerhard Ansel, Plant Manager

The forecast for 1963 for Dow Metal Products Company, a division of The Dow Chemical Company, was generally borne out. As anticipated, our aluminum business expanded moderately as we continued to be a substantial supplier of extrusions for military vehicles.

We experienced a modest expansion of our plate business for this year.

We look forward to continuing gains in both of these product areas.

Experience gained in producing commercial aluminum sheet is expected to provide volume expansion in this market with price stabilization. Last year, we began producing material for portable aircraft landing fields on our large extrusion press, and we expect this business to continue.

An unfortunate work stoppage because of an end-of-contract strike provided the only shadow of a dark cloud over the year. A bright year for the plant. The greater number of our major customers have been able to recall the majority of our work force when operations resumed.

It is hoped that both parties sufficiently aired the major areas of dispute so that we can look forward to a concentrated and combined effort to capture that larger portion of the light metal market which this plant is capable of handling.

Tri-City Regional Port District

By Carl A. Hanft, Chairman

The Tri-City Regional Port District has completed the year 1963 with the results generally in line with the forecast at the beginning of the year.

The Port has completed its first construction contract, a major access road into the port's loading area, and has consummated a total of five leases with private firms for various sizes and facilities to be built in the spring of 1964.

The present lease, the Port is working on an extensive group of proposed leases that should materialize in impressive progress for the fiscal year 1964.

The potential for the Port in the interest in firms to locate or expand their business in the Tri-City area is continuing to increase at a very satisfactory rate. If there is no serious disruption of the full business conditions during the fiscal year 1964, the Port has every right to expect a very bright future.

Once these base leases are operating and the service can be provided, the Port will develop at a more rapid rate.

Waterway Development
The Tri-City Regional Port District and the City of Chicago.

New type services that are in the offering should provide for a new flow of imports and export material through this Port.

The developments along the Illinois Waterway, starting at Granite City and East St. Louis and going into Chicago, have been very impressive in the year 1963 and exceed the rate of growth of other economic divisions and areas of the country.

Waterway-Economic Link
Since a major portion of the new industry that is being located in this country is located on water sites either for the use of water for shipping or for cooling purposes, the state of Illinois should have every right to expect a comparable industrial development along the Illinois Waterway system as has occurred in the Ohio River Valley.

The Tri-City Regional Port District is working quite closely with the newly established Illinois Planning Commission, the various Chambers of Commerce of the Illinois Metropolitan area and the Illinois Economic Development in Springfield.

To this, the results have been very satisfactory and, with the continued cooperation of these groups, nothing would indicate but what the Illinois Metropolitan Area can produce the required facilities for its present population growth and provide for additional employment of the new classes of labor that are being produced by the fine school systems of Metropolitan Illinois.

As the year ends, and on behalf of the Tri-City Regional Port District, thanks should be extended to the number of firms and individuals who have been produced by the fine school systems of Metropolitan Illinois.

Granite City Plan Commission

By David W. Morgan, Chairman

The Plan Commission has been very active during the past year. Many new subdivisions, some of which include apartments and shopping centers, have been reviewed and approved this year.

Of course, development of these areas immediately adjacent to the corporation line of Granite City is contingent on the lifting of the severer ban by the State Sanitary Water Board.

I believe that as soon as the problems on the treatment plant are worked out and the ban on sewer tap-ons is lifted, the subdivisions will start into their development programs.

Master Plan
From a planning and construction standpoint, the year of 1964 could be a banner year. Plans are being made to bring the Comprehensive Master Plan of the City up-to-date.

This city has grown so rapidly that the original plan is almost outdated.

By bringing the plan up-to-date, it will give us a good insight into future planning of schools, parks, residences and industry.

Probable 1964 Projects
Many plans are being put in effect on construction in 1964. The construction of the treatment plant, continuation of the new Federal Highway 151 on the west side of the city, the new motel on Niedringhaus and Benton, new Colonades Nursing Home on West Pontoon road and the additional 100 units for the elderly at Anchorage are a few that should be completed or well underway in 1964.

The progress for widening Namoki road from Madison avenue to the north should pick up momentum in 1964.

With the construction mentioned above, coupled with new

subdivisions and shopping centers and the expansion programs of industry, the economic condition of Granite City should be greatly increased.

Highways, Transportation
I might add that Congress has passed a bill whereby any city over 50,000 population must have an urban transportation plan by June 1965, before it will be eligible for federal aid for highways.

The State Highway Department has hired a consulting firm to prepare such a plan for the larger cities in the state. I have seen this plan for Granite City and I know it will be of interest to many people in this area.

In the near future, a public meeting will be held for the citizens of Granite City outlining the highway system in and around Granite City. Dates and place will be advertised in advance of the meeting.

During 1963, the American National Bank of Granite City has progressed very well, and our forecast for 1964 is continuing improvement in financial and business growth and development of our community.

During 1963 the bank's deposits increased by more than 22%, and the number of customers we serve has increased correspondingly.

To enable the bank to efficiently serve its customers, expansion of our automobile parking areas was completed early in 1963, at which time drive-in services were also enlarged and improved. During 1963 our bookkeeping department was doubled in size as well.

These changes have made it possible to provide improved service to our customers, even though the number of depositors and borrowers are using our facilities.

We confidently expect our growth in both deposits and numbers of customers to continue in 1964.

Street Improvement Vital
Increases in our volume during 1964 will result from increased business activity in the Bellemore-Namoki area. As the city's growth in commercial buildings is continuing, it is important that needed improvements in streets and drainage, storm water and sewage be made.

The State Highway Department has hired a consulting firm to prepare such a plan for the larger cities in the state. I have seen this plan for Granite City and I know it will be of interest to many people in this area.

In the near future, a public meeting will be held for the citizens of Granite City outlining the highway system in and around Granite City. Dates and place will be advertised in advance of the meeting.

When Nameok road is improved, the intersections of Pon-

toon road and Johnson road, as well as St. Clair avenue, will be greatly improved. The congestion of these streets, in addition to being a nuisance and time-waster for the residents of this area, has held back business development for several years.

Many merchants in the area, desiring to improve their stores, have been unable to do the work until the work in the streets is completed. The city administration is to be commended for having plans prepared for their improvement and having announced that the work will be done in 1964.

New Stores, Homes
In addition to improvements in streets and drainage, new stores, shopping centers now in the planning stage for Namoki road will be started in 1964. These stores will permit local merchants to provide a higher percentage of our consumer needs, which in turn will lighten our individual tax load.

Housing starts in Granite City

during 1963 have been disappointing, and this has been caused by the inability of Granite City to provide a satisfactory solution to storm drainage and sewage control. The two bond issues that failed passage have been the least direct way for the city council to proceed with their own plan of storm water and sewage control.

Granite City's sewage and storm drainage have been severe problems for many years and, during the past few years, residential growth has been hindered. These problems should be solved during 1964, permitting the area to again expand and develop.

Industrial Growth
The geographical location of the Tri-City provides transportation facilities for rail, ship and highway that are among the finest in the country. The large tracts of easily developed land in the Tri-City are ideal for economical development for industrial and residential purposes.

These locations are superior to any elsewhere available in the Greater St. Louis area, and along with our highly efficient manpower, will, within the next few years, continue to bring more new and diversified industry to our community.

We are fortunate to have so many sincere civic and business leaders in the Tri-Cities that are being produced by the fine school systems of Metropolitan Illinois.

As the year ends, and on behalf of the Tri-City Regional Port District, thanks should be extended to the number of firms and individuals who have been produced by the fine school systems of Metropolitan Illinois.

Tri-City Grocery Co.

By S. E. Pershall Jr., President

I think probably 1963 was a surprise to many economists, as in many companies the volume and profit picture was much better than had been forecast or anticipated. The upward swing, we believe, will continue through 1964.

We certainly are still in an inflationary period, and whether it will continue through 1964, the near future is doubtful. Thus, wages will no doubt continue to rise, and the cost of merchandise to also go up.

The average income continues to rise and the consumer continues to upgrade his purchases.

Income Tax Reduction
The cutting of income taxes and corporate taxes was predicted for 1963 but, as of this writing, it has not been accomplished. I would think that during 1964 this bill in some form will pass both houses of Congress. This should be a shot in the arm for our economy.

The terrible tragedy that happened to President Kennedy has shaken most of our nation. However, the nation has shown the confidence in President Johnson through the strength of the stock market as well as opinions expressed by the public and politicians.

President Johnson has a wide appeal in both the political arena as well as foreign affairs, and my own feelings are that he will have the wisdom and judgment to lead our nation to new heights.

Warehouse Expansion
Tri-City Grocery Company has somewhat less volume in 1963 but somewhat more net profit. We added 25% more warehouse space, which included a new produce and egg cooler and a frozen food cooler. We closed one store in 1963 and did not open any new ones.

We remodeled completely our Venice, Ill., supermarket, adding over 50% more floor space and the new equipment available in the Quad-City area.

There is still much fine land available in this area for industrial expansion. It is now a matter of convincing industries that the Quad-Cities is a desirable area in which to locate.

The new interstate highways that are being constructed and those already built should beneficially affect this area also.

All in all, 1964 should be an excellent year, business-wise, in the Quad-City area.

There is still much fine land available in this area for industrial expansion. It is now a matter of convincing industries that the Quad-Cities is a desirable area in which to locate.

The new interstate highways that are being constructed and those already built should beneficially affect this area also.

All in all, 1964 should be an excellent year, business-wise, in the Quad-City area.

Associated Retailers & Civic Association

By Stanley Schermer, President

As 1963 draws to a close, the business community of the Tri-Cities looks to 1964 with optimism—tempered by caution.

Employment in our community stands at a record high. The average income per family unit is one of the highest enjoyed by any industrial community in the nation.

The relocation of operations of General Steel Industries to Granite City, the likelihood of a greatly expanded force at the Granite City Army Depot, and the increased activity at the site of the local Southern Illinois University campus assure a record income for the Tri-City area.

Retail and service industries in the Tri-Cities can share in this record income, provided:

1. Service, Cooperation
Every merchant must recognize the need to provide the kind of shopping facilities which the public deserves. For some operators, this means merely redecorating others will require major remodeling, and a few will have to consider relocation.
2. Every merchant must utilize fully the built-in advantage that he enjoys: The merchants to patronize the local merchant, provided facilities, services, merchandise and prices are equal to what can be found elsewhere.

Each year at its close, Mr. Townsend of the Granite City Press-Record requests that local industries furnish information for reviewing the past year's activities in an attempt to forecast the business climate for the coming year.

This, we believe, can be beneficial to the local industries as well as everyone in the area since—by reviewing the past—certain guidelines can be established which will bring a clearer picture of changing times which present new and various problems.

It seems that the successful operation of business which contributes to good periods in a community is more complex than that conceived by many people, and that greater understanding and cooperation for these problems can be beneficial.

Company Consists Of People
A company is not a trademark or plants, or mines, or other facilities, but the people who make it. Like all of us, these people have desires and needs, and the advertising and selling of the company's products; people like our officers and directors, planning and direction help to make it successful; people like our stockholders, who help put the dollars to work for us to buy tools and equipment in order to create, increase, and improve the products and services which we know and trust and use the things we make.

We could not have a company without all of them—all working together all contributing to the success of the thing we call "the company."

The tools to make and dis-

tribute these products cost a good deal of money. Where does that money come from?

Source Of Funds
In part, it comes from the operation of the business—and in part from the numerous stockholders, people who believe in us, who have been willing to put their money to work for us. What the stockholders have done is to hire their dollars out to us to put them to work for us for a small return in interest, not unlike that in savings accounts, or building and loan associations.

The money a company receives from sales to customers is divided into many parts. A large share goes into salaries and wages, and another big portion is paid out for materials we need.

In business, metals, cartons and the like; for water, gas, electric power and charges for trucking, water and rail freight for supplies of all kinds, repair and maintenance of plants and equipment as well as other charges.

Still more goes to federal, state, and local taxes. The stockholders get another share in the form of dividends.

Some is set aside for reserves. Tools and equipment wear out and have to be replaced. Plants need to be renewed, and expanded new facilities have to be bought.

Cooperation Essential
With this in mind and with the keenness of competition today, which in many cases reflects a higher volume of sales with a decrease in profits, continued local as well as national economic improvement in 1964 can only be accomplished by all of the people related to a company, or business having consideration for its varied problems and relationships—operating in the field, and in order to insure a more efficient and profitable operation in the future.

National Lead Co.
The money a company receives from sales to customers is divided into many parts. A large share goes into salaries and wages, and another big portion is paid out for materials we need.

tribute these products cost a good deal of money. Where does that money come from?

Source Of Funds
In part, it comes from the operation of the business—and in part from the numerous stockholders, people who believe in us, who have been willing to put their money to work for us. What the stockholders have done is to hire their dollars out to us to put them to work for us for a small return in interest, not unlike that in savings accounts, or building and loan associations.

The money a company receives from sales to customers is divided into many parts. A large share goes into salaries and wages, and another big portion is paid out for materials we need.

East St. Louis & Interurban Water Co.

By E. Clinton Smith, Vice-President & Manager

As the year 1963 draws to a close, the East St. Louis and Interurban Water Company pauses to make its plans and forecasts for the year 1964 and for the years immediately following that.

The forecasts for each individual year are made on the basis of long-range planning. The expansion and improvements of the facilities which are planned for the individual years are units of a larger master plan designed to meet requirements of the system for as much as ten to fifteen years ahead.

The year 1963 followed the pattern which we had estimated it might in making our forecasts for that year. Business activity was somewhat slow in the early months of the year but in the year draws to a close, we have noted considerable acceleration in our growth. Overall, it would appear that the year 1963 was marked by very severe weather, which caused very extensive damage to some of our service facilities and much time and money had to be expended to repair this damage.

It was necessary, therefore, to curtail capital expenditures,

Eagle Park Acres area. Work on this latter project was commenced late in 1963 and will continue into 1964.

While the tragedy which befell our nation in November of 1963 caused a pause in most types of business activity, it is our estimate that the country has started to go forward again and will continue to do so at an accelerated pace during 1964.

Faith In Future
Our company therefore, continues to show faith in the future growth of the area it serves. Tentative estimates would indicate the need for spending several million dollars on plant expansion and improvements over the next four or five years.

Budgets calling for expenditures in excess of \$1.5 million for the year 1964 for capital improvements are now under consideration by the company's board of directors, and it is expected that these recommendations will be acted upon in the very near future.

The East St. Louis and Interurban Water Company is proud to have played a part in the expanding growth of our local economy and will continue to press forward making our area even more attractive and a better place to live for our citizens.

In looking forward to 1964, our preliminary estimates indicate that plant expansion and improvements will be needed in the year in an amount exceeding \$1.5 million. This expansion will be experienced in obtaining capital funds for plant expansion.

Much of the growth anticipated for the year 1964 and present plans call for the installation of large sized water mains in the Pontoon Run area and completely new water distribution system to be installed in

Granite City Steel Co.

By Nicholas P. Veeder, Board Chairman & President

Nineteen sixty-three made one thing very clear. The steel industry is rapidly becoming a new kind of business. Everyone who works for Granite City Steel or any other steel company should understand the changes that are taking place. No company can avoid them.

No company can, for example, afford intense competition for orders that has become a permanent way of life in the steel business. The demand for steel used to exceed the supply for months at a time—particularly so in the case of the flat-rolled steel products in which Granite City Steel specializes. Those days are gone.

There is plenty of flat-rolling capacity in Chicago and other steel centers. We have to fight for every order. We must produce to tighter and tighter standards of quality.

Improved Processes
And no company can avoid the impact of certain basic input factors in the way steel is made and processed.

There are no competitors here already let contracts for basic oxygen furnaces to make their flat-rolled steel products. The cost, as well as to higher levels of quality.

Quality, Efficiency
The best chance for steel to broaden its markets is to challenge from rival materials such as plastics and aluminum.

As we move into the New Year, I hope each one of the Granite City Steel's employees will resolve to do his individual best to make 1964 the year in which we laid the foundation for another period of improvement and growth.

Granite City Board of Realtors
By J. C. Cochran, President

As 1963 fades into past history, few tears will be shed by those in the real estate industry. As such, brought forth these highlights but instead was characterized by a rather apathetic buyers' market.

Many fine bargains in homes were offered for sale but unfortunately, too few buyers took advantage of what could well be the best time to buy in years. The year-end sales in real estate prices.

Rental Market Strong
The rental market remained consistently strong throughout the year, with good accommodations in most cases going for premium rates.

Older, run-down properties, however, were plagued by vacancies and by tenants who demanded and were willing and able to pay for more modern, up-to-date quarters.

The mortgage situation was highly favorable, with money in plentiful supply. Any qualified buyer could find terms and conditions to suit his needs.

Metals, Apartments
In 1963, before bidding began a rather forthright bidder, the writer must credit to some extent, the new Travelodge Motel (sorely needed), several attractive new apartment buildings (mostly occupancy) and, of course, the bright new downtown cafeteria.

As we look forward with renewed hope to the birth of a new year, a more prosperous year for the real estate business, there is a feeling of confidence in the future.

New Year In Year
Locally, the cycle or slide of real estate prices seem to be leveling off. The market remains fairly stable throughout 1964. However, the last quarter of the year saw a slight upward trend in prices.

Favorable Prices, Taxes
The House of Representatives has passed a bill which holds its own promise of future return to its investors.

Teamwork
At this time Granite City Steel operates a plant that is modern and fully competitive. Technology does not stand still, however. We know that it eventually will change the magnitude of the Corps of Engineers' continued stewardship of our national water resources.

Water Resources
No challenge of the past has been more important to the future of the nation as the Corps' assigned responsibility to develop and conserve the water resources of our country.

Channel Improvements
The Corps of Engineers' Second Session, authorized channel improvements for flood control, navigation and other purposes, each person in the United States requires 1200 gallons of water daily.

Madison County Farm Bureau

By Truman W. May, Farm Advisor

People may get tired of hearing farmers talk about the weather, but it's the most important and unpredictable factor affecting farm income in a given year.

In 1963, it was too wet early in the season and too dry later for good crop production, but yields were fairly satisfactory.

Reasonably favorable weather in 1964 should maintain farm income in the Granite City area on about the same level as in recent years or perhaps a little better.

Net farm income for the United States in 1964 is likely to be somewhat below this past year, according to most of the forecasts, but the number of farmers is decreasing, so average individual income may not drop.

See Record Imports

Continued expansion in domestic demand for farm products and record high exports are anticipated for 1964. Cash receipts to wheat growers will be reduced because of both lower prices and reduced government payments.

Higher cash income from sales of other farm commodities is expected to partially offset this decline. Farm production expenses are expected to rise further.

Net farm income in the current year is expected to be 2% to 3% below the \$12.6 billion in 1962, despite the fact that a record high gross income of about \$41 billion.

Crop receipts are expected to be up, with both the volume and prices higher than last year. Receipts from livestock and livestock products are expected to show little change, as lower average prices are offset by a record high volume of marketings, reflecting the sharp increase in cattle slaughter.

Government payments to farmers will probably total slightly more than last year. Increased costs, however, are more than offsetting the rise in gross income.

Steady Rise In Expenses

Farm production expenses have risen steadily during recent years. While gross farm

income has risen to record levels, farmers have not had much success in efforts to hold down expenses. Indeed, farm production now takes the largest proportion of gross income since the depression years.

Farm production expenses for 1963 are expected to total about \$28.7 billion, compared with the previous record of \$28.2 billion in 1962. Past evidence and present indications point to a continued upward trend.

In 1964, the increase in production expenses is expected to equal the rise that occurred in 1963—gains in taxes, feed and fertilizer prices and depreciation charges more than offsetting lower expected cost for feeder and replacement livestock and building materials.

There is not much livestock and dairy farming in the Granite City area. The leading crops are corn, soybeans and wheat. Two specialized crops, sweet corn and horseradish, are almost as important in cash income to farmers of the community.

Improved methods of producing and marketing sweet corn and horseradish have made these crops more profitable in recent years and should help increase farm income in 1964.

Union Starch & Refining Co.

By B. J. Hunter, Vice-President of Manufacturing

Although Union Starch & Refining Company's production reached a new high in 1963, profit was depressed severely by the costs of developing new types of corn syrups and starches, as well as an unsatisfactory relationship between corn costs and selling prices.

We are encouraged by the acceptance of our products nationally, and have strengthened our research staff in an continuing program to emphasize the development of new products and increase the outlets for our existing basic starch and corn syrup products.

The construction of our new "modern" continuous refinery was completed in 1963 and has been operating successfully for several months.

Improved Process

During the past year, our company's research center at Granite City developed an improved process for the production of sodium and calcium cyclamate, a non-sweetener produced from chemicals. Low-calorie foods and soft drinks have popularized the use of cyclamate.

Its principal use at present is in the soft drink industry, which is a large consumer of the caramel color produced at our local facility. Construction of the plant to produce cyclamate is under way at the company's Edinburg, Ind., facility and we expect to be in production during the second quarter of 1964.

Cyclamate is a natural component to our company's sales of caramel color and corn syrup. The Granite City research center is working on the chemical processes of products that naturally fit into our product line and we anticipate further expansion in the coming years.

Efficiency Vital

Nineteen sixty-four is a challenge to all of us at Union Starch & Refining Co. to increase our operating efficiency by improving our process and by the continuous effective application of our energies and talents.

These things we know must be done if we are to continue to earn our right to survive and prosper in the present competitive markets.

Modernization Scheduled

Capital expenditures at the Granite City plant will be increased in 1964, and practically all of our expenditures will be for the modernization and rehabilitation of our present facilities, all of this directed towards making our plant a better place to work and a more efficient operating unit.

All of us at Union Starch look forward to the challenge that will be presented in 1964 by the confidence in our capability to find solutions to our problems through the collective application of our energies and talents.

We are also confident that our political leaders, business and industry, and our citizens will—by the continued application of their talents and energies—find solutions to the problems facing our community.

2766 Use Free Lot For December Shopping

During December, 2766 persons used the free parking lot at 18th street and Edison avenue, according to Alvin Barnes Jr., secretary of the Granite City Downtown Shopping Center.

A total of 8885 motorists have used the lot since it opened last summer. Barnes urges anyone who plans to come downtown to make use of the lot.

Two In Fight Arrested

Joseph Dowdy, 40, of 4532 Maryville road, and Huntley K. Bertrand, 26, of 2918 Grand avenue, were arrested at 11:20 p.m. Thursday by Granite City police on charges of creating a disturbance and fighting at Mile & Mickey's tavern, 1800 State street. Bertrand was taken to St. Elizabeth Hospital for emergency treatment and was returned to jail. They were later released on \$12 cash bonds.

Vandals Shot Window

A. M. Meadows, 2214 Dewey street, reports to Granite City police at 11:50 p.m. Thursday that vandals shot BB holes in the front window of his home. Before you attempt to reform others be sure you display a fault-proof example.

Granite City PRESS-RECORD
Page 14 Mon., Dec. 30, 1963

School Safety Patrol Boys Aid Lost Girl

A word of praise went to 20 11-year-old school safety patrol boys last week from Granite City Police Chief James J. Stevens in recognition of their assistance in getting a lost kindergarten girl home.

The boys, Charles Wilson, son of Mr. and Mrs. Harry McCreary, 2110 East 20th street, and Richard Howell, son of Mr. and Mrs. Elmore Howell, 2023 Russell street, are safety patrol boys of a Laite school bus.

Both are sixth graders and they aided the little girl who had boarded the wrong bus. She became excited and couldn't remember her name or address.

When they alighted in the 2000 block of East 20th street the boys took her to a nearby public telephone booth and summoned police. The officers were able to learn the girl's identity and take her to her home in Tri-City Park.

Chief Willard wrote letters to the boys praising them for "a job well done."

Building Permits In GC Reach \$92,000 Mark

Two building permits were on file to raise a store building and one to build a new home were issued during Christmas week by Earl Bloomquist, city building inspector, and City Clerk A. L. Stevens.

They increased the total for December to 11 permits with combined values of \$92,650 as the city reached a seasonal decline in new construction.

A permit for a six-room, 13-bath brick veneer home was issued to Jim Reiter, to be located at 4015 Rodde avenue, Melrose subdivision, at a cost of \$14,000. John Laake obtained a permit for remodeling and alterations to the Ralph building, 3233 Nineteenth street, to cost \$230.

Joe Rill, Rill Construction Co., was given a permit to raise a service station building at 2200 Pontoon road at a cost of \$2000.

Miscellaneous Work By GC Street Crews

Street department crews spent last week trimming low limbs of trees, repairing street and traffic signs and checking light stations and repairing cinder graders.

The crews also emptied downtown trash containers, and cleaned manholes and catch basins as warmer weather melted the snow and ice.

Notice Filed To Dissolve H&R Furniture Co.

A notice of intent to dissolve the Illinois corporation of the former H&R Furniture Co. has been filed at the Springfield office of Secretary of State Charles P. Carpenter.

The store had been in operation here at several locations over many years and was closed during the fall.

Two From Granite City Attend Mother's Funeral

Word has been received of the death of Mrs. Eugene (Liza Wesley) Moore Dec. 20 in Madisonville, Ky. Mrs. Thomas (Lona) Hunt, 2132 Bryan avenue, and John Wayne Moore, 2023 Holliday avenue, children of Mrs. Moore, returned late last week from Madisonville after attending funeral services.

Mrs. Moore, who had been ill for two and one-half years, died at the Madisonville Hospital where she had been for a month. She is survived by her husband, Eugene Moore, a retired coal miner, nine children, 22 grandchildren and nine great-grandchildren.

Surviving children are: Mrs. Hunt and John Wayne Moore of Granite City; Mrs. Edward (Joseph) Davis, Mrs. Ernest (Irene) Worley, Mrs. Gene (Mae) Blair, Mrs. C. Moore, Earl E. Moore, Archie Moore and Paul Moore, all of Madisonville.

Services for Mrs. Moore were held at Salem Baptist Church, Morton, Gap, Ky.

Aliens May Register In Local Post Offices

Aliens who will be in the Quad-Cities area or anywhere in the United States will be required to register their addresses during January with the attorney general.

Registration forms will be available at any post office or immigration service office. The law applies to all aliens who are in the United States on Jan. 1 of each year.

The only exceptions are accredited to certain international organizations and those admitted temporarily as agricultural workers. The law provides stiff penalties for violations, according to John M. Lehmann, director of the Chicago district, Immigration and Naturalization Service.

Last January a total of 409 aliens registered in the Quad-Cities, including 269 in Granite City, 125 in Madison and 15 in Venice.

Mother Of GC Residents Dies At Alton

Funeral services were conducted Friday at St. Mary's Catholic Church, Alton, for Mrs. Margaret O'Brien, 65, mother of William O'Brien and Mrs. Reginald Mennerich, both of Granite City. Mrs. O'Brien, who had been ill three years, died at her home in Alton. She had retired from the Owens-Illinois Glass Co. two years ago.

Rose Completes Basic Training In San Diego

John E. Rose, son of Mr. and Mrs. John E. Rose, 1527 Fourth street, recently completed basic training at the Naval Training Center, San Diego.

The nine-week training includes naval orientation, history and organization, seamanship, ordnance and gunnery, military drill, first aid and survival.

Mrs. Donahue's Mother Dies In East St. Louis

Funeral services for Mrs. Corinda Kays, 50, Alorton, mother of Mrs. William (Bertha) Donahue, Granite City, were held Friday afternoon in East St. Louis. Mrs. Kays, who died Tuesday in St. Mary's Hospital, had been ill with heart and arterial ailments for several years. She had been in the hospital for 12 days. She also is survived by her husband, Walter; three other daughters; two sons, a brother; a sister and 15 grandchildren.

MESSAGE BY ROBERT D. SHAW

PUBLIC INVITED

Southwestern Bell Telephone Co.

By R. R. Shockley,

Vice-President & General Manager

The story of the Quad-Cities in 1963 was one of new subdivisions, school additions, highway construction. It was, in short, a story of continued growth.

The story of the Southwestern Bell Telephone Company's service to the area during the past year was also one of growth, for as this outstanding community of homes and businesses has grown, its communications needs have grown with it.

How much have these needs grown? And how fast?

I think one important statistic will serve to answer both questions:

80% Increase In Decade

At year end, there were 25,000 telephones in service. This is an increase of more than 80% in the number of phones which we served in the Quad-Cities area ten years ago.

This growth rate, I might point out, is far in excess of that in most of the large communities which we serve.

The past year saw the addition of \$170,000 to our total investment in the area in an attempt to keep pace with expanding needs. More than 100 new telephones were added.

Less Trouble On Lines

Another step forward—one which you can't see, but which is of vital importance to the quality of the service which you receive—was the completion of our cable pressurization project. We have added air pressure to 210 miles of cable to prevent moisture seepage, thus reducing the possibility of trouble on telephone lines.

True, we strive to make improvements and to keep pace with expanding demands for service. We know, however, that we must do more than just keep pace with needs. We must keep ahead of them.

To keep ahead, we will spend more than three times as much in 1964 as we did in 1963. The investment for modernization and expansion in the Quad-Cities area next year will total about \$688,000.

Included in this will be an initial expenditure of \$140,000 for the first step in construction of a new telephone central office. When this building, to be located in the northern part of the Granite City Exchange, is completed and equipped in 1965, it will have cost almost a million dollars.

The money we spend in the area during the next year will help us to improve our service to customers. It will also provide more jobs. When I speak of jobs, I don't mean jobs just for our employees, but also for the many suppliers and contractors in the area who work closely with us.

Automatic Dial Phones

Looking back to 1963 again for a moment, I might mention that we introduced two types of new, automatic dial phones, which will dial interoffice, local or long distance calls.

Also new was the panel phone, an instrument which is mounted flush with the wall with only the dial and handset extending.

The past year has been an important one for us in the Quad-Cities area. New services were extended. Old ones were improved. As always, however, we must look to the future—not just to 1964, but to 1974 and beyond.

Talks On Rome Council Open At K. Of C. Meet

A series of discussions on the ecclesiastical council as it deals with the laity was instituted at a meeting of Tri-City Council 1098 of the Knights of Columbus Thursday night by Rev. Sylvester Micek, O.F.M., council chaplain.

The talks will be based on a new publication, "Constitution of the Liturgy," which recently was translated from the original Latin text and distributed to the Catholic clergy by the bishop of the Springfield diocese. The first talk was based on the effects of the Bible in daily life.

During the meeting reports were made on the children's Christmas party held Dec. 22 and the annual membership party held last Saturday night.

Announcement also was made that the Columbian Squares circle will hold a parents' night banquet at 7 p.m. today at which Bro. Donald Ribbing, S.M., a former member, will speak and the Square of the year will be honored.

Johnny Bloodworth Real Estate Agency

HAPPY NEW YEAR
To our many friends, special thanks for the privilege of serving you in your real estate and insurance needs during the past year. Once again we offer you the following for 1964.

OUR STATEMENT OF POLICIES TO THE SELLER

1. Pre-closing statement given at the time of listing, showing all of the charges, as well as the amount of money you will receive at the closing of your sale.
2. Professional Appraisals based on Current Market Values.
3. T.S.T. This means "Teamwork Sales Techniques"—the entire office staff works enthusiastically on your sale and will answer ALL your questions. There will be NO WAITING FOR ANSWERS.
4. The very best in advertising.
5. A solid sale—a fast closing.

TO THE PURCHASER

1. Courteous, prompt and exacting answers to your questions.
2. Pre-closing statement showing your closing costs, payments, taxes, etc.
3. The very best in loan arrangements available for your purchase. FHA, GI, and Conventional Loans. Construction Loans.

TO ALL... WE OFFER
Property Management and Professional Real Estate Counseling. Experience has taught us all we know. Giving you the answers to your problems will make us grow. If you have tried selling your home recently and been unsuccessful, let us give you our answer in 1964.

8000 Hours Free Parking For Shoppers

Downtown shoppers were given 8000 hours of free parking during December under the annual program of the Downtown Granite City Shopping Center merchants.

Maurice Rich, chairman of the group's executive committee, said the city's parking meter patrolmen were provided with tickets to put in evidence meters during the period Dec. 2-24. With each nickel placed in a meter, the patrolmen also stuck cards under windshield wipers advising the motorists of the merchants' courtesy parking.

Alvin Barnes Jr., secretary of the downtown center, said this was the eighth year for the program to be carried out and that a number of inquiries have been received from retailing groups in other cities wanting details of its operation.

Rich and Barnes said it is done only with the cooperation of the city council and the police department.

Board Of Review Adjourns, Hearings On Complaints End

The Madison county board of review concluded its 1964 session last week in Edwardsville with the early completion of hearings on assessment complaints of individual property owners and corporations.

No action was taken, however, on recommendations for spot checks of assessments in five townships and for a complete re-assessment of property in Godfrey township.

The board had requested County Musso, county treasurer, to investigate the assessments in townships because of alleged inequities of rates of assessments in comparison with those of other townships.

Musso determined that property in Godfrey township was assessed an average of 38% of fair market value, in contrast to a 60% ratio agreed upon by all assessors.

Assessment changes authorized by the board during its daily hearings are yet to be entered on the assessor's books before the board meets again in February to sign the records. It will reconvene early in June.

Retiring from the board is Charles Rook of Alton, who has served eight years as a Republican appointee. Other members are Harold Landolt, chairman of the Madison county board of supervisors and a Republican, and Frank Rissi, a Collinsville Democrat, who was appointed Aug. 1 to succeed the late Arthur Bete Fields of Venice.

INCREASED ACTIVITY at the Granite City Port along the Chain of Rocks canal with the handling of barges loaded with thousands of tons of rock salt bound for St. Louis. Low water at the St. Louis dock has hampered operations there. Warmer weather late last week opened the river to barge-tow traffic.

NEW CONVEYOR-HOPPER INSTALLATION at the Bi-State Development Agency's Granite City Port, placed in operation about two months ago, transferring rock salt from barges to trucks and rail cars. Warmer weather has improved river operations and more freight is being handled at the local harbor along the Chain of Rocks canal due to a low water stage at the St. Louis harbor.

Viaduct Collision

Venice police were advised Thursday of a Dec. 24 collision in a westbound lane on the Broadway viaduct involving the front of the car of Stephen Lopez, 203 Granville street, and the rear of the car of Donald Tabor, Route Four, Edwardsville.

"KEY MAN OF THE MONTH"

Vernon Marti (left) senior buyer at the local A. O. Smith Corp. plant receiving his award from Plant Manager Nicholas R. Brink. The award is presented monthly to the one man in the corporation's purchasing and

traffic departments who has displayed the most ingenuity and initiative toward reducing cost. Marti, who lives in Edwardsville, suggested the purchase and use of a mobile crane for handling heavy equipment, eliminating the need for expensive rental of this type of equipment.

Window Broken By Rock

A vandal threw a rock through the living room window of the apartment of Henry Rhymer, 4154 Madison avenue, Madison, while he was watching television in that room at 8:40 p.m. Thursday.
